CHICAGO, SATURDAY, OCT. 30, 1886.

THE MARKET.

Reports from our leading agents show a favorable market for both real estate and loans.

The rentiug of houses has been quite active duriug the past week but at lower rentals than in the spring, there being a reduction of from 15 to 20%. Leases are only made up to the first of May at these figures. Property owners realize the fact that houses deteriorate much faster when vacant than when occupied. There seems to be a larger per cent of houses unrented on the west side than on either of the others, as shown by the boards of the prominent renting firms.

H. A. Hurlburt has made several large loans on property leased for 99 years. He reports a firmness in the rates of loans.

John Wain is receiving a strong demand for central bnsiness property from home bnyers.

Alfred Heckman reports favorably in regard to South Englewood property. The cheap fares on the Eastern Illinois and the Rock Island give this property special promiuence.

This place contains schools, chnrches de pots,etc. South Englewood is located several miles scnth of Englewood and is a comparatively new point.

Barnes & Parish are rentiug a large num ber of houses for this time of year. The houses that will be left nurented are withont modern improvements, or in ba d repair. Basement houses find a poorer market this year than ever.

The recent auction of 100 lots at Sonth Chicago proved to be so great a success that the owner was induced to place more proproperty for sale in this way.

The same may be said in regard to the anction at Fernwood. Another sale of fifty lots will be held on Satnrday.

At the last anction of the Real Estate Board, all the property offered for sale w as sold.

The Board will continne to offer at pnblic auction such properties as may be given them for this pnrpose.

This will open up a satisfactory way for owners to make a rapid sale of their property. J. C. Magill & Co report an improvment in their renting department during the past week. They have made the following sales:

N. W. cor Madison and Leavitt sts, 60x125 to Louis Gazzolo, $18,000.

No 262 Ashland av, a 3-story and cellar stone front with 33 ft lot. H. R. Sy mouds to Prof. J. F. Claflin $17,000.

S. E cor Warren and Oakley aves. 50 feet and frame house J. K. Thompson to Henr y Kohn, $7,500.

Van Buren st east of Laflin 25x188 feet, M. W. Hill to B Titus, $4,000.

No 883 Milwaukee av cor Ashland av, frame building with lot. Anton Horn to Gustaq Kohn $6,250. House and lot in Lombard Ill. $8,000.

S. E. cor Jackson and Washtenaw ave 25x 100, Wm, B. Thorp to J. B. Durand, $1,200.

177 So. Green street 2-story frame with lot for J. H. Livesy, $4,250,

Madison st, east of Crawford ave 2 lots, Wm. Trimble to Michael McManus, $3,000.

4728 Tracey av. frame cottage a ad lot H. H. Roberts to Chas. Ekes. $1,050.

25 ft lot on Congress st, near 53d St, for Chas. Ekes, $1050.

90 acres in Bowen Co. Wis. for K. O. Granum, $800.

Jackson St, east of Washtenaw Av. 25x120 E. E. Russell to J. B Durand. $1,000.

Warren Av, east of Crawford Av, 1 lot, Wm. Trimble to P. Mc Manns, $800.

679 Ashland Av. one and a half story brick with lot for J. H. Gill, $4,000.

CORRESPONDENCE.

To Wiley S. Scribner. Esq.,Recorder of Cook County:

Dear Sir—In addressing these lines to you as a public officer, I desire to say that my personal regard for you and your subordinates in office is well known to you and to them. You are the Recorder of Cook County, to which office you were elected by the people, and not appointed by any other officer or body of officials. The Statutes clearly define your duties and powers. You are the sole custodian of the public land-records, and as such, the independent master of your office as to its general management nnder the Statutes, responsible only for such management to the people and your bondsmen.

By your well-known disposition to serve yonr fellow-citizens, it was given you to easily acquire popularity and to show, without any personal sacrifice, your fitness for the position, and to prove to the voters of this county the correctness of their judgment in selecting you for this office.

In the work of one department only—a department added to the Recorder's office some ten years ago—was it essential that more than ordinary care and business tact shonld be exercised. The advantages and permaneut success of that particular department were still, in the eyes of some, on trial. Here was your opportunity.

The addition of the Abstract-Department to the Recorder's office, I may say, without assurauce, has been largely due to my efforts in the past. In these efforts I was actuated at that time by a desire of relieviug the landed interest of county and city from what, shortly after the great fire. was looked upon by many well-meaning people as a burden upon those owning and handling real-estate here.

The complete success of that department for all time to come, as a source of public convenience, has, for this reason, been a matter of particular interest and desire to me, as that would be a public approval of what I had helped to bring about.

At your accession to your present office, its permanent success, in a moderate degree, was an accomplished fact. This was justly gratifying to me. The good reputation that far earned by it, not without a struggle of years, might have been easily kept up. In their general system, Abstract or Tract Books will never be perfect—they can always be improved upon—but they should always be correct aud reliable in what they show. The books fouud by you on entering your office were no exception to this rule.

But plainly, though regretfully spoken, ther e soon came a time when you, as the responsible official superintendent of them, were drawn into deep water.

The attempt of the County Board to lease these books to outside parties—then the effort to let under contract the completion of certain elaborations npon them—the subseqnent appointment of an expensive expert(?)—the mischievous, not to say false report of that expert on the condition of the books, and finally, your silence to that misleading report, were the first steps toward deep water. The most ill-advised move however was your offer to do, under a contract price, the work of elaborating or transcribing some of the books—an offer no doubt honestly made by you, but looked upon by outsiders as a "job." This offer was thought to have been instigated by the ring in the Connty Board at a price suspiciously high. For this reason it called forth a bitter opposition in the public press and caused most unfavorable newspaper comments upon you and the whole department, inclnding the books themselves. The extensive publicity given to the controversy finally resulted not only in the complete defeat of the proposed contract work, but also iu a great shaking of the confidence hitherto reposed in the books and the work of the office.

It is here where deep water began to tell on your situation and to have its effect upon the business of the office.

The ante-fire-abstract firms (now for the best of reasons combined into one), during all the years since the fire, having had a great deal of abuse heaped upon them, had never been known to strike or even "talk back," but simply went on the even tenor of their way. Yet the County Board, evidently under the impression that the opposition of the press to your proposition nnder contract had been instigated and nurtured by these firms, and in the foolish hope of driving by force all the past fire-abstract work into your office, determined to strike an annihilating blow at all abstract firms by ousting them all from the precincts of your office, where they necessarily had always, nnder a precedent of nearly forty years, done and now do much of their work of examination. This it was found could only be attempted by securing you, the Recorder, as a williug ally. To this scheme, to which other county officers at that time refused acquiescence in connection with their own departments, you lent your official position, even if main force had to be resorted to. Yon were only prevented by an injunction from assisting in carrying out what might have resulted in a serious interference with the main bulk of the real-estate trade.

This attempt on your part to permit the ejection of the public in the persons of their agents from your office—from the public record office—was a most serious mistake to say the least. You had no quarrel with the private firms, nor with their employes, nor with their many patrons. The ante-fire firm had even made abstracts to the time of the fire at their regular rates at your request for yonr customers, a concession which they refused to their own regular customers at any price.

Many of their patrons had frequently work done at your office. When they patronized private firms they had the best of reasons; when they patronized your office they should have been welcome, as they did it out of pure choice and good will. They were all citizens who made, by right, that use of your office, direct or indirect, for which it was created, and they were all, whether principals or agents, yonr constitnents. By far the largest portion of even the post-fire-abstract work cauuot be driven to any particular office, and least of all to the Recorder's office.

On the final hearing before Jndge Shepard the case was decided against you and the injunction made permanent, as was to have been expected. The record of this case has now been made np for an appeal by yon, which shows that you are persisting in yonr mistaken course. What good can you lo for from it? It is to be hoped that. on f ther reflection, you may see the error your course in connection with this nnsav controversy, especially when it is easy you to ascertain the fact to be that y have engendered a hostility to yourself a your office, which will never allay itself u less you withdraw entirely from this litig tion. Many former friends of the abstra department of your office have, by your a ion and its consequences, been driven oppose it, to the great injnry of its futu usefullness. Thus, the results of years patient labor on its books and the benef looked for from the expenditures of thou ands of dollars, have been seriously nnlifi by your course in this connection.

This is to be greatly deplored on gene principles, and it is particularly mortifyi to me, and therefore, this letter. In cas where a public officer can stretch a point should always be in favor of the peop whom he is to serve. So, remember that is never too late to mend. You could ha but one excnse in this whole affair, and th would be the strictly legal soundness your position.

With the kind permission of the Editor The Real Estate and Building Journa and with all deference to the able leg minds interested as well as engaged in t case before Judge Shepard, I may endeav to express my humble views in another i sue of this paper, upon points bearing the legal questions involved—points whic I think were not made sufficiently promine in the arguments on the above occasio The real gist of that case was, of cours owing to its great importauce to private a stract firms, the right of access to the ori inal instruments immediately after they a filed in the Recorder's office. The right access to the records themselves seems, to mind unclouded by legal sophistry, almo too clear to allow of any dispute. In t meantime, I "lay the flattering unction my soul," that you will receive this letter i the spirit of friendship and persuasion i which it is written, by

Yonrs truly, Otto Peltzer.

Real Estate for Sale.

BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under coustruction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

—(o)(o) Do You Want a Home! (o)(o)—
(o)(o) (o)(o)
(o)(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a house and lot on the easy-payment plan and be absolutely certain that should death occur your family will be provided with a home clear of all indebtedness and also with a sum of money to help them through the most distressing time of their lives? If so, buy a home on the W. E. Catlin guarantee plan, which gives the purchaser the strougest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Pennock, either of frame houses and cottages, honestly and well built, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles, at extremely low prices, on long time and easy payments, and positively guarantee that should you die during the continuance of the contract we will give your wife or heirs a deed to the property free of all incumbrance, and return them in cash all the money you may have paid on the premises. If you purchase a home on this plan and die during the continuance of the contract the property will cost you nothing. If you do not die you pay for the home just as easy as though this guarantee had not been given.

Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splendid opportunity to make money or get you a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26.

H. B. BRYANT'S
Chicago Business College,
SHORT-HAND INSTITUTE,
—AND—
English Training School.

1.—This is the largest and best equipped Business College in the United States.
2.—Young Men and Women are here made competent and put in the way of earning their own living.
3.—There are Two General Courses,—1, the Business Course; 2, the Course in Short Hand and Type Writing.
4.—Either course prepares one for Self-support, and the knowledge can be put into immediate use.
5.—The English Branches are also taught for the benefit of those who have negiected their early education.
6.—Graduates of High Schools and Literary Colleges need this Practical Training, and they patronize this College, as it furnishes the Highest Class of Instruction.
7.—Over $40,000 are expended annually in furnishing the facilities that this institution offers.
8.—Mr. H. B. Bryant was the senior member of the well-known firm of Bryant and Stratton, who established the chain of Colleges in 48 cities.
9.—Every Young Man and Young Woman needs the practical Training that this College affords.

THE
Real Estate and Building JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, NOV. 6, 1886.

THE MARKET.

The market is all that could be expected. The slight depreciation in the demand felt in some of the offices is the natural outcome of the season.

Acres are more in demand than ever and as a result, the coming year will witness a large amount of subdivision property placed on the market.

The long talked of under-ground railway has at length assumed a more definite form. A company, organized for the purpose of building an under-ground passage from State street to Colorado av., on Monroe st., is now pushing vigorously its claims for the right of way on this street. C. C. Thompson, R. L. Henry and C. H. Crawford are the names attached to a circular sent out to advocate the claims of the new enterprise. Such a road, properly constructed, would not interfere with the residents on the street and would open up and develop a large amount of property west of Western ave.

The meeting of the Real-Estate Board was held on Wednesday. In the absence of the President, Mr. Byron Lathrop presided. Mr. Lathrop has just returned from an extended trip through the West.

"The losses incurred by riots," was reported on by a committee to the effect that there was no law by which the injured could retrieve their losses. The committee were reappointed to confer with the Citizens' Association, who have this under consideration, with reference to bringing it before the Legislature.

A committee of three were appointed on invitation of the Union League Club, to meet it for the discussion of matters pertaining to real-estate.

E. A. Cummings reports a firm demand for inside property. There has been a slight falling off in the sales of lots, but no more than would be expected for the closing of the fall trade.

Bogue & Hoyt find a steady market for real-estate. There is evident a very strong movement in acres.

As to Hyde Park and Kenwood real-estate the demand is constant and for actual use. This property has now become a favorite for fine residence sites.

R. W. Hyman, Jr. & Co. report a good demand for loans, with rates firm at 6 and 7 per cent. They have sold during the past year, about forty lots in their subdivision at W. 48th and 12th sts., on the Wisconsin Central Railroad. A new station has recently been placed at the junction of these streets, and is one of the many which are springing up all along the line. The Wisconsin Central has caused a strong demand for acres all along its line.

The two recent auctions at Fernwood resulted in the sale of fifty lots. Henry L. Hill, in speaking of the auction, said it was entirely satisfactory in both the amount sold, being from $6,000 to $7,000 worth of lots, and in the character of the buyers. They were pleasantly surprised to find a large number of buyers, men of means, connected with the leading business houses of Chicago, and able to build with their own money. As a result, twenty houses will be built at Fernwood by men who had their attention drawn to the place through the advertisement of the auction. This feature of the auction would seem to be a strong inducement for other sales of the same character.

E. S. Dreyer & Co. report a very active market for residence property. In one section, they have closed up sales amounting to $80,000. The future of Lake View is especially bright. Indications now point to a rush for this growing suburb commencing with the early part of next year.

In an interview with S. E. Gross & Co., the business at the present time was found to be active, especially in the sale of lots-Lake View, Humboldt and Brookdale are the three points at which the firm are largely interested. At Brookdale, they are just completing five houses of very attractive designs. The constructing of the cable road on the North Side, thus increasing the facilities for reaching Lake View, makes the prospect more flattering for that property.

Rennpath & Knefel report a good demand for property in the southwestern part of the city.

The largest transfer in suburban real-estate that has been recorded for weeks, appears this week. It is for 150 acres in South Chicago, sold by the Calumet and Chicago Canal and Dock Co. to John S. Alley, for $224,955.

CITY COUNCIL.

An ordinance was passed for sidewalk on both sides of 25th Place from Stewart av to Halsted st; on both sides of Indiana av from Douglas av to Egan; on both sides Indiana from 22d st to Douglas av; on both sides of James av from Laurel to Benson sts; on both sides of Walnut st from Kedzie to Homan aves; on both sides of w 20th st from Halsted st to Centre av; on the east side of Sacramento av from Wilcox av to w Jackson st: on the north side of Taylor st from California ave to Francisco st; for curbing and filling 13th Place from Ashland ave to Wood st; for curbing, grading and paving 32d st from Cottage Grove av to Lake Park av; also 27th st from South Park av to its eastern terminus; Prospect place from Vincennes to Cottage Grove av; also the alley from Page to Wood sts; between Washington Bd and Park ave; for curbing filling and paving w 21st st from Centre to Blue Island ays; Hoyne av from w Division to Bryson sts; also ordinance establishing grades on Egan, Langley and Vincennes aves; also for establishing sidewalk space on Hunt st from n Centre av to Elizabeth st.

INVESTMENTS.

The United States Loan and Trust Compaky have recently opened up an office at 309 Royal Insurance Building, for the negotiation of loans on real-estate. They make a specialty of farm loans in the States of Ohio, Indiana, Illinois and Kansas. They have had twelve years experience in placing real-estate loans in these States. They offer investments drawing six per cent. interest per annum, payable twice a year, and guarantee the prompt payment of interest at their office—with both principal and interest secured by first mortgage on an improved farm in these States—and at not more than one third the cash valne of the land.

M, B. Swezey has placed 125 of his improved dumb-waiters in the fine residences and public buildings of Chicago during the past year. Among these we note the residences of Messrs. Chapin, of Chapin & Gore, Granger Farwell, D. Harry Hammer, Geo. B. Carpenter, Alfred Cowles, E. Partridge, Union League Club, et al. The Swezey Improved Dumb Waiter is becoming more popular with every year, and owes its success to its genuine merits.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

—(o)(o) Do You Want a Home! (o)(o)—

(o)(o) —%— (o)(o)

(o)(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a house and lot on the easy-payment plan and be absolutely certain that should death occur your family will be provided with a home clear of all indebtedness and also with a sum of money to help them through the most distressing time of their lives? If so, buy a home on the W. E. Catlin guarantee plan, which gives the purchaser the strongest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Pennock, either of frame houses and cottages, honestly and well built, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles, at extremely low prices, on long time and easy payments, and positively guarantee that should you die during the continuance of the contract we will give your wife or heirs a deed to the property free of all incumbrance, and return them in cash all the money you may have paid on the premises. If you purchase a home on this plan and die during the continuance of the contract the property will cost you nothing. If you do not die yon pay for the home just as easy as though this guarantee had not been given.

Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splendid opportunity to make money or get you a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26.

J. F. & C. P. KEENEY.

E ½ lt 3 blk 47, 7 39 14, Oct 25, L R Lind to O D Frary—$1.

HOW TO DECORATE.

—Heavily-colored rooms reqnire dark furniture, and in a like sense light-colored rooms demand light furniture.

—Very beautiful Roman punch glasses are made to represent roses, and the accompanying saucers imitate the leaves.

—A handsome table cover is of dull blue-green felt, trimmed with a broad band of velvet of same color, the band is to be ornamented with a Renaissance applique design in old golds, old blues, old reds and fawns couched down by strands of filoselles in old gold.

—The proper thing at dinners is not to have a great floral display, the style adopted chiefly is to scatter a few roses and other fine flowers over the table without any effort at arrangement. Some small Japanese blue and white pots with small ferns growing in them, may be placed here and there upon the table with very good effect.

REAL ESTATE LAW.

George A. Johnson v. William Filson et al. Filed at Springfield Oct 6, 1886.

DEED—A written instrument from a father to his son, recited among other things that "I. W. T., of eto., have this day bargained, and do grant, bargain, sell and confirm unto the said," etc., naming the son and the land, for the sum of $600 in hand paid, and then bound the father in a penal sum to make to the son by a time mentioned a good and sufficient warranty deed: Held, that the writing was operative as a present conveyance of the land, and that the agreement to make a deed at a future day was equivalent to a covenant for further assurance.

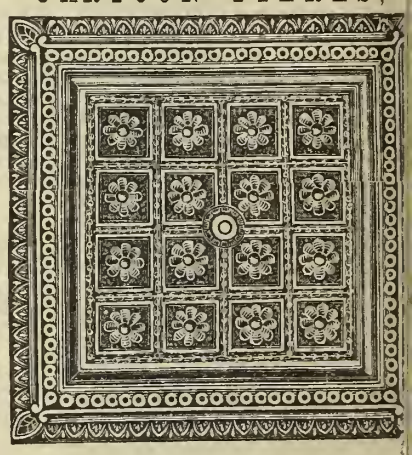
EQUITABLE TITLE.—Upon a bill in equity for the partition of land, an equitable title is as available as an unquestioned legal title, and if the defendant shows that he is the equitable owner of the entire title, this will bar the relief sought.

When a yarty shows a clear title of record it can not be overcome by proof of his casual admissions made over twenty years before to the effect that another person had some interest in the premises.

Where a bill for the partition of land was not filed until more than twenty years after the complainant became of age, and his right of action, if any existed, accrned some thirty-six years before, during all which time the defendants and those under whom they claim, have had the sole and exclusive possession under claim of ownership nnder a conveyance from a common ancestor, it was held that a degree dismissing the bill was proper.

Writ of error to the Circuit Court of Morgan County.

The possession of one tenant in common is constructively that of all, and to disseize his co-tenants, there must be an actual onster, or such acts as amonnt to one before the limitation runs: Jenkins v. Dalton. 27 Ind 82.



FORECLOSURE—WHERE NO PART OF PRINCIPAL IS DUE.—The opinion of the Supreme Court of Connecticut, by Carpenter J., holding that where no part of the principal secured by the mortgage is due, a foreclosure can only be for interest due and unpaid. Where the condition in the mortgage does not itself show that the interest is payable before the maturity of the notes secured, but purports to secure them according to their tenor, and the notes all read: "Five years after date, for value received, I promise to pay * * * with interest annually at six per cent," it is to be interpreted as a promise to pay interest annually, and sufficiently describes the notes as against a defendant who has acquired an interest in the equity of redemption from the mortgagor. That the particularity required in making a contract is not required in describing it in the mortgage by which it is secured; hence the failure of the condition to state when the interest is payable does not necessarily afford grounds for the inference that it is payable when the principal is.

—Modern architects have produced certain clever effects by placing the fireplace in the corner of the room and placing a window of stained glass above the fireplace.

H. B. BRYANT'S
Chicago Business College,
SHORT-HAND INSTITUTE,
—AND—
English Training School.

1.—This is the largest and best equipped Business College in the United States.
2.—Young Men and Women are here made competent and put in the way of earning their own living.
3.—There are Two General Courses,—1, the Business Conrse; 2, the Course in Short Hand and Type Writing.
4.—Either course prepares one for Self-support, and the knowledge can be put into immediate use.
5.—The English Branches are also taught for the benefit of those who have negiected their early education.
6.—Graduates of High Schools and Literary Colleges need this Practical Training, and they patronize this College, as it furnishes the Highest Class of Instruction.
7.—Over $40,000 are expended annually in furnishing the facilities that this institution offers.
8.—Mr. H. B. Bryant was the senior member of the well-known firm of Bryant and Stratton, who established the chain of Colleges in 48 cities.
9.—Every Young Man and Young Woman needs the practical Training that this College affords.

CHICAGO, SATURDAY, NOV. 13, 1886.

THE MARKET.

The Real Estate Interests of the Stock Yards.

DEMAND FOR LOANS.

The week makes a favorable showing in the actnal transactions in real estate, disclosed by the record of the warranty deeds and the reports of bnsiness from many of the real estate offices.

An important pnrchase of bnsiness property was made by A. A. Munger, of the sontheast corner of Madison street and Wabash avenue, 97x132 feet for $275,000.

The improvement is of ordinary character and something better is looked for on this corner.

The sale is important as showing the price of Wabash avenne property, averaging in this instance $2750 a foot with only ordinary improvements and with a lot of less than fnll depth.

There is a considerable demand for lease holds which have been made on properties for a term of years withont revalnation.

The popnlarity for this kind of security is characteristic of the real estate market of the present year.

The strike at the stock yards is of great concern to property owners in that vicinity. An interview with several agents who are prominently interested both as owners and as representatives of their clients, shows that the nnsettled state of affairs which has existed for some time, together with the present strike has prevented hundreds of sales which would otherwise have gone throngh.

In regard to those who have pnrchased and pay in monthly payments, it is believed that an extension of time will have to be granted and that this will tide them throngh.

J. T. Young, who has bnilt twenty-four houses in the vicinity of the stock yards this year says that the payment notes which he has received on his houses will insnre him against loss if he has to carry them a year.

E. S. Dreyer & Co. report no effect as yet in the payment of mortgages which they are holding on the Stock Yards property.

Arthnr Gehr & Co. who have a subdivision in the neighborhood of the Stock Yards say that sales are practically at a standstill there bnt bnsiness otherwise has been good.

It is believed that the strike will have only a temporary effect and that it will be of short duration as the employes who have visited the real estate offices in the interest of their property, all say that they are ready and anxious to go to work, but are afraid at present.

Chandler & Co. report a considerable movement going on in the property where the cable lines are to be extended to the sonth. When the cable line is extended on Cottage Grove one can ride from the heart of the city to 67th street or take a branch line on 55th St. to Lake Av. for five cents.

Property west of Washington Park has been stimnlated by the elevated railroad which the people in that vicinity believe will be carried through.

The same may be said of property adjoining Jackson Park, where the Chambers Syndicate are making extensive improvements.

It is nnderstood that enough property has been sold to enable the syndicate to make their first cash payment.

In regard to the loan market, Mr. Chandler said the less supply of money than heretofore tends to make the market firmer, which is a better state of things than if there were a large supply with lower rates.

This is accounted for by the greater demand for money for commercial interests.

John N. Young has sold twenty lots in his Lave View subdivision and fifteen in his Anstin. Several honses are now being built.

John A. Bartlett, reports a favorable market for Normal Park real estate.

J. P. Mallettee & Co. report the erection of several fine residences at Eggleston; none less than $3,000.

Streets have been macadamized and different grades of trees been set out which adds greatly to the attractions of the place.

R. C. Wright Jr. died at his residence in Woodstock Ill. Wednesday, Nov. 10.

Mr. Wright was for many years a member of the firm of Wright & Tyrrell and has been prominently connected with the real estate interests of the city.

He was obliged to withdraw from the firm several months ago on account of ill health.

RIVALRY AMONG NEWSPAPERS.

After many years of faithfnl and correct work by the REAL ESTATE AND BUILDING JOURNAL the representatives of other papers have been forced to acknowledge its snperiority as an advertising mednm. No other newspaper extant is so nniversally filed and bonnd for future reference, thns rendering it of ten-fold valne when compared with the average periodical and daily which have bnt an ephemeral existence. An advertisement once printed in the Jonrnal is there for future generations as well as for to-day, tomorrow and all year. Our rivals seeing this, and learning still further that all classes of business men nse it as a "guide to investment and a protection to credit." undertake to gull the public by telling them that as soon as it is received by the subscriber it is filed away and hid for fnture reference. Any man who will believe this is foolish, and any man or canvassing agent who will use such bosh is an lass and an arrant liar. The JOURNAL has always published facts and figures and hearafter will expose some of the frauds that beset the honest real estate dealer and the business pnblic. The JOURNAL does not need to lie for a living.

CITY COUNCIL.

An ordinance was passed for sidewalk on both sides of Oakley av from w Chicago av to Division st; on both sides of Carroll av from Francisco st to Albany ave; on both sides of Schiller st from n Clark st to Dearborn av; on both sides of Halsted st from sonth branch Chicago river to Egan ave; on both sides of 33rd st, from Stewart av to Halsted st; on both sides of 26th st from State st to Wentworth av; on both sides of Wood st from 31st st to Archer ave; for cnrbing, grading and macadamiziug Ewing Pl. from Hoyne av to Leavitt st; for grading and paving Warren av from Sacramento to Homan aves; for curbing, filling and paving Brigham st from Ashland to Wood st; for cnrbing, grading and paving the south alley in B 47 Carpenter's add; for curbing and filling Armitage av from Elston to Western avs; also Paulina st from w 12th to 15th sts. An ordinance repealing ordinance and annulling assessment for sidewalk on the north side of 33d st, from Ashland av to Charlton st; for vacating and opening alley in snb B 2 lot 34 part of 1 and 2, B 11, Sheffield's add; also for vacating part of alley in b 5 Watson Tower & Davis sub in Sec 6 39 14.

An ordinance was passed establishing sidewalk space on Burton Place from Dearborn av to Lake Shore drive.

LAKE VIEW.

Twenty-five building permits were issned last week. The value of the proposed strnctures is $40,000.

The following streets have been ordered opened by the Superior Conrt: Ashland avenue north to Green Bay road; Winthrop avenue and Goodwin streets, north from Fifty ninth street; Wilson avenue from Ashland avenue to Lake Michigan; Southport avenue from North Fifty ninth street to the town line; Cleveland avenue, from Clark street to Sheffield avenue; Hazel street, from Sulzer street to Bunnella avenue; and East Ravenswood Park, from Lawrence avenue to Rosehill.

LAW DEPARTMENT.

CHATTLE MORTGAGE.—A junior incnmbrancer of property has the right to pay the prior lien for the protection of his own, and be snbrogated to all the legal and eqnitable rights of the prior incumbrancer, and it was error to overrule the motion to enjoin the prosecntion of this suit: Armstrong v. McAlpine, 18 Ohio St. 184; Muir v. Berkshere, 52 Ind. 149. Jones on Chattle Mortgages, Secs. 658, 659; Sheldon on Subrogation, Secs. 12, 15, 21, 77.

The delivery of property by a debtor to a creditor as secnrity for a debt, or with the agreement that it may be sold, and the proceeds applied to the payment of the debt or various debts, is a pledge and not a sale: Belden v. Perkins, 78 Ill. 449; Baldwin v. Bradley, 69 Ill. 32; Stearns v. Marsh, 4 Denio 227.

This is the legal effect of the transaction, although the conveyance is by bill of sale absolute in terms: Walker v. Staples, 5, Allen, 34; Eastman v. Avery, 23 Me. 248; Marshall v. Bryant, 12 Mass. 321; Whittaker v. Sumner, 20 Pick. 399; Kimball v. Hildreth, 8 Allen, 167.

The pledger has snch an interest in the goods as may be sold. and the purchaser snccceds to all the rights of the pledger: Whittaker v. Sumner, 20 Pick. 399; Erwin v. Arthur, 61 Mo. 386; Arnold v. Stock, 81 Ill 407.

Legal Sales and Foreclosures.

BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

—(o)(o) Do You Want a Home! (o)(o)—

(o)(o) (o)(o)

(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a house and lot on the easy-payment plan and be absolutely certain that should death occur your family will be provided with a home clear of all indebtedness and also with a sum of money to help them through the most distressing time of their lives? If so, buy a home on the W. E. Catlin guarantee plan, which gives the purchaser the strongest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Pennock, either of frame houses and cottages, honestly and well built, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles, at extremely low prices, on long time and easy payments, and positively guarantee that should you die during the continuance of the contract we will give your wife or heirs a deed to the property free of all incumbrance, and return them in cash all the money you may have paid on the premises. If you purchase a home on this plan and die during the continuance of the contract the property will cost you nothing. If you do not die you pay for the home just as easy as though this guarantee had not been given.

Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splendid opportunity to make money or get you a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26.

J. F. & C. P. KEENEY.

Lot 68 Boone's add, Sept 30, John Carne Jr to H C Drury—$1.

HOW TO DECORATE.

—A very creditable screen may be made ont of the two-fold small-sized clothes-horse. The rack is first covered with stont nnbleached muslin, drawn very tightly over the frame; cretonne is then fastened in folds over this. The bars may be stained or gilded according to fancy.

—Colored glass in windows of halls or apartments should not be so intense as to throw out tinted rays on walls or intervening objects.

3088 Wm Katz v Thos J Tierney. $140.

DECOBAVIVE NOTES.

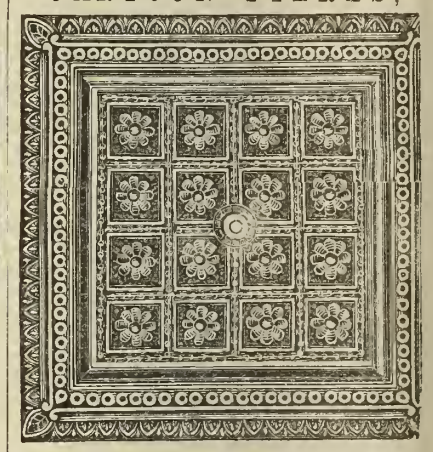
—The light falling through colored glass windows upon the various colors of the interior decoration so changes the tints as to produce entirely new effects.

—A novel fire-screen is in the form of a brass peacock, with a spread tail of natural feathers.

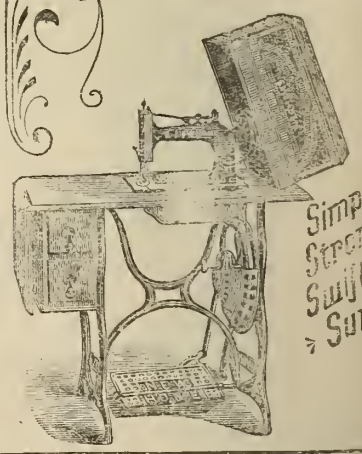
—Window metal brackets for holding flower-pots and movable, radiating arms appear in singularly beautiful forms.

—Cresent-shaped cushions are seen on many of the new drawing room suits.

LEGAL SALES.



Dec. 11.



Lots 1 to 12 and 25 to 37 in b 10 of S J Walker's sub of all that part lying south of the Ill and Mich Canal, of n w qr of sec 31 39 14. J Alder Ellis, Successor in Trust. L N.

ESTABLISHED 1846
MUNN & Co.
PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequaled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free.

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York.

Handbook about patents mailed free.

H. B. BRYANT'S
Chicago Business College,
SHORT-HAND INSTITUTE,
—AND—
English Training School.

1.—This is the largest and best equipped Business College in the United States.
2.—Young Men and Women are here made competent and put in the way of earning their own living.
3.—There are Two General Courses,—1, the Business Course; 2, the Course in Short Hand and Type Writing.
4.—Either course prepares one for Self-support, and the knowledge can be put into immediate use.
5.—The English Branches are also taught for the benefit of those who have neglected their early education.
6.—Graduates of High Schools and Literary Colleges need this Practical Training, and they patronize this College, as it furnishes the Highest Class of Instruction.
7.—Over $40,000 are expended annually in furnishing the facilities that this institution offers.
8.—Mr. H. B. Bryant was the senior member of the well-known firm of Bryant and Stratton, who established the chain of Colleges in 48 cities.
9.—Every Young Man and Young Woman needs the practical Training that this College affords.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, NOV. 20, 1886.

THE MARKET.

The market for the past week may be characterized by a fair demand for real estate and a firmness in the rates of interest on loans. A large amount of vacant property in lots exchanged hands, which is quite noticeable at this time of the year.

While there has been a scarcity of deals in inside holdings, the agents in this class of property have been busy on deals which promise to develop soon.

Great satisfaction has been expressed at the ordinance passed by the Trustess of Hyde Park, allowing the city railway company the right to extend the cable on Cottage Grove to 67th with a branch on 55th to the Illinois Central. The chief point in this grant is the five cent fare from Madison St. to the limit of the line. Mr. Holmes the Supt. also promises to heat the cars.

The concessions which have been made by the company is largely due to the competition of others who were desirous of the same right of way.

The property owners of Hyde Park and those owning alone the line are specially elated, as a boom in this property is expected the coming spring. It is believed the vacant tracts south of the city limits will be rapidly built up, and settled by many of those who are seeking suburban property as it holds out special inducements in its nearness to the city, cheapness of fare, etc., over suburbs situated some miles from Chicago.

Reports show very extensive building in the residence parts of the South side.

As an illustration on Prairie Av. between 38th and 39th streets over 32 houses have been built during the present season.

A marked demand is still noticeable by Board of Trade men for property in vicinity of the depot at Grand Boulevard and 41st St. An 18 minute ride will bring them to the Board of Trade. Baird and Bradley report an increase in the demand for Lake View property within the last sixty days.

This has been due to several causes. The Chicago & Evanston Railroad have put on more trains. The construction of the cable line and the extension of street car tracks on the thoroughfares leading into Lake View and the proposed continuance of the drive along the Lake Shore all combine to strengthen the market for Lake View real estate. Since the first of the year the firm have closed out eighty lots in one subdivision in Lake View, ranging in price from $600 to $1,200.

What has been said in regard to Lake View lots may be said in regard to cheap lots in all directions.

In reference to the loan market the firm report a fair demand with strengthened rates of interest. They are loaning no money at less than 6%.

Geo. R. Clark reports the proposed erection at an early date of a building for the Chicago University at Morgan Park. Final arrangements have just been concluded and it is expected the college will be open at the commencement of next fall. Morgan Park is already noted as a Baptist Centre and the location of the University there will still further emphasize this fact. Forty five houses have been built during this year at Morgan Park at an average cost of $4,000 each.

Through the agency of Geo. R. Clarke as representative for the Blue Island Land Co., $120,000 in houses and lands have been sold since the first of June.

TRUE MEASURE OF GREATNESS.

The extent of our clearing house reports, the volume of business done on the Board of Trade, and the great numbers of cattle, hogs and sheep received, shipped and slaughtered at the Stock Yards, are sure indications of the commercial greatness of Chicago. To these may be supplemented our lumber trade, the largest in the world, and the rapid increase in new buildings. A volume might be written descriptive of the enterprises above mentioned; in all except the last, Chicago rivals the world. Though she ranks third in population among the great cities of the United States, she is next to New York in the amount of real-estate transactions and the extent of building operations. A week's records in Philadelphia do not begin to compare with our reports for six days' business, as published by The Journal.

Our railways, with but few exceptions, are the best paying lines on the continent; no other city in the West has so many roads operating so many miles, and more are coustantly being built. Besides this very important essential in transportation facilities, Chicago stands at the foot of the chain of great lakes, which contains more than half of the fresh water on the globe. Surrounded by the richest agricultural and mineral lands and the widest extent of territory, her geographical position and back country, are fast driving her to the front rank of the great cities of the world. What nature has not given us, the wonderful enterprise and indomitable energy of our leading men have supplied.

Thus much having been said in praise of our greatness, we must stop; we have a score of evils to contend with. Our crumbling court-house, the cost of which no one knows, is one indication of our rottenness in politics. It is a rebuke to our public servants who have held the offices in the county board and figured in its construction. The same may be said of our custom house and post office; both structures commenced to crack and fall before they were finished. They will be a source of expense as long as one stone in them remains upon another. Pudding-headed politicians and boodle commissioners are to blame for it.

Inasmuch as our public servants are elected by the people, and the majority rules, we cannot therefore congratulate ourselves upon the character of our large and rapidly growing population. We have produced a considerable crop of bomb-throwers and boodle politicians, followed by an army of tramps and dead-beats. Our population might be thinned out and we would be richer and greater, and our capacity for business would not be impaired, but rather increased. Estimating a city's greatness by the size of its population is too much like giving preference to candidates for an office by a standard of avordupois. This, however, seems to be the rule of measurement in Chicago politics.

* * *

Chas. A. Seymour & Co. have recently opened up an office for the transactiou of a general real estato and loan busiuess, at Room 14, Major Block.

The firm are prominently connected with the real estate interests of New York and Brooklyn, where they have offices. The object of the firm in establishing a branch in Chicago is to direct eastern capital toward western investments and to gain a foothold in the real estate interests of our large city, whose future they have great confidence in.

CITY COUNCIL.

An ordinance was passed for curbing and filling Wilcox av from C & N W R R to Sacramento av; also for curbing, grading and paving Halsted st, from north branch of Chicago river to Division st; same for alley blk 28, Carpenters add; same in alleys blk 9 C T sub w ½ w ½ ne ¼ 17 39 14; same in alleys blk 19, C T sub same; same for north alley blk 5, McNeils sub blks 6, 7 and 8; Wrights add, same blk 18 C T, sub w ½ w ½ ne ¼, 17 39 14; south alley also blk 5 same; also for curbing, grading, paving and removing trees on Indiana av, from Douglas to Egan av; same from 22nd to 29th, same from 30th to 35th; for opening and widening Milford av from Ogden to Douglas Park Boulevard; also for 6 inch drains on Frank st from Waller to Blue Island av; for 6 inch drains on Hastings st from Ashland av to Wood st. The improvement of Miller st was confirmed also to stay proceedings in assessment for alley between LaSalle av and N. Clark st, and from Schiller to Grant st, and for annulling assessment for the improvement of N. Clark st, from the river to Chicago av.

An important auction of two valuable pieces of real estate will be sold on Wednesday Nov 24. 1886, at the north entrance to the court House on Clark St., by decree of the Superior Court. This property consists of 69 feet fronting on Ellis and Cottage Grove Avs., near 35th St. and two lots 25x180 each on Wabash Av. near 25th st. The abstracts may be examined at the office of John S. Cook Room 72, 163 La Salle St.

Wm. A. Merigold, for many years with the firm of Wm. D. Kerfoot & Co., is now engaged in the real-estate and loan business for himself, at 183 La Salle street. Mr. Merigold will carry on the business in all its departments, and will bring to bear his ong experience aud large acq uaintance with property owners and buyers in his new undertaking.

SUBURBAN IMPROVEMENTS.

LAKE VIEW.

The Suburban Gas Company gave notice that it would extend its maiues in Semiuary place from Seminary to Racine avenue, in Dempster place from Evauston avenue to Clark street, and in Lill avenue from Seminary avenue to Racine avenue. The petition for a six-foot brick sewer in Belmout avenue from Ashland avenue to Robey street was referred to the Committee of the Whole. The report of the Water Collecter for the half year euding Nov. 1 gave the total amount of water rents collected as $21,754. The sewering and paving of Evanston avenue from Belmont avenue to Sulzer street were ordered. Ordinances were passed for opening Lake View avenue from St. James' place to Fullerton avenue, and for sewers in Ashland avenue from Sulzer street to Wilson avenue, in Clybourn avenue fron Belmont avenue to the Northwestern tracks, Wellington street from Sheffield avenue to Halsted street.

JEFFERSON.

The farmers of Jefferson have long nursed felings of resentment against A. J. Snell, owner of the toll road that occupies Milwaukee avenue. This felling was greatly increased when it was rumored a day or two ago that Mr. Snell contemplated erectiug another toll-gate just southeast of the intersection of California avenue and the road. The farmers have been evading the payment of toll at the first gate by going arouud it on McGovern street. It is to prevent this that the new gate is to be put iu. Sunday night one of the fifty-foot poles to be used in the construction of the new gate was carried away aud presumably cut up by indignant citizens.

—(o)(o) Do You Want a Home! (o)(o)—
(o)(o) (o)(o)
(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a house and lot on the easy-payment plan and be absolntely certain that should death occur yonr family will be provided with a home clear of all indebtedness and also with a sum of money to help them through the most distressing time of their lives? If so, bny a home on the W. E. Catlin gnarantee plan, which gives the purchaser the strongest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Pennock, either of frame houses and cottages, honestly and well bnilt, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles, at extremely low prices, on long time and easy payments, and positively guarantee that should yon die during the continnance of the contract we will give yonr wife or heirs a deed to the property free of all incumbrance, and retnrn them in cash all the money yon may have paid on the premises. If you pnrchase a home on this plan and die during the continnance of the contract the property will cost you nothing. If you do not die you pay for the home jnst as easy as thongh this guarantee had not been given.
Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splen did opportunity to make money or get you a home. Call and see the property free.
☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26.
J. F. & C. P. KEENEY.

"BUSINESS IS BUSINESS."

The "Mercantile Journal" believes with the Rev. Dr. Talmage that "there is no war between religion and business; between the Bible and the ledger; between counting rooms and churches." Those were the words he used, a few Snndays ago in opening a disconrse which was intended to give enconragement to business men. His text was from the fifth verse, twelfth chapter of Romans: "Not slothful in bnsiness, fervent in spirit, serving the Lord." Dr. Talmage showed that business was the best and most practical school for religious training. The annoyances, the disappointments, the trials, the reverses of the bussiness man, if received in the right spirit, made him a patient forgiving Christian. He said: "God starts us in the world with a certain amount of raw material, out of which we are compelled to monld our character. Every faculty mnst be ronnded out and finished off by the conflicts, disappointments and trials of life. After a man has been in business for a number of years he gains an energy that will surmonnt all manner of obstacles. God intends that this energy shonld be devoted to His work. God demands the best sheep of the flock, the best sheaf in the bundle, the best men of all generations. Oh, for fewer idlers and more workers! Archibald Sloan, of Philadelphia, was a notable example of a business man, not after the fashion of the world. He sacrificed his private fortune to pay the obligations of a firm with which he was connected. He went to work however, and succeeded again in winning fortune, and the air of the Quaker City was full of his goodness. He was sent one day to collect a bill. When he arrived at the house he found the family packing up their goods preparatory to going to Texas to start life anew. He saw the wife and the children, and he said to himself if he levied on the goods he would take the food out of the children's months. He went away without saying anything abont the bill. I hear some men say: "That is not business." I have heard it before: 'Business is business.' But by and by we will be going up to the throne of God. Suppose God says to us: 'You have done many wrong things in your life; right is right; business is business; yon can't come in.' "

---The table damask used at luncheons, is of light tints, either pink, blue or gray, some very elegant styles are of momie cloth, very beautifully embroidered in crewels.

	Sales.	Amount.
City	165	$734,876
Suburban within 7 mls. radius	110	231,821
County	107	282,745
Total	382	$1,249,442

Summary of Warranty Deeds for the week ending Nov. 19, 1885:

	Sales.	Amount.
City	149	$968,315
County.....	192	404,377
Total.....	341	$1,372,692

—Old-fashioned clocks, on a miniature scale, are made of Doulton ware.

—Silver pitchers of artistic design and rich decoration are the most fashionable for serving water. These do not have covers.

—Banded ornament prevails in the most costly dinner services, and exceedingly rich colors interspersed with gold.

HOW TO DECORATE.

—Twisted work in mahogany and in maple decorate many screen frames.

—Stained glass screens are the loveliest of all fire-screens, with their jewelings of cut crystal, affording a brilliant play of color.

—Candles on the tables and lamps abont the room are much more used than lights from the ceiling; both candles and lamps should always have shades.

—The newest piano covers are made in plush, not to fit, but to be thrown over carelessly and sparsely worked with circles in gold thread and silk.

—Cameo glass candle shades in tnlip form are novelties.

REAL ESTATE LAW.

Henry H. Gage v. The People ex rel. William C. Seip. Filed at Ottawa, October, 1886.

1. TAXES.—Back taxes—Subdividing and extending as to parts of the original tract. —Where a tract of land, upon which are unpaid back taxes, is subdivided into blocks and lots by the court in a snit for partition, the county clerk will have no authority to divide such back taxes and extend the several parts upon the lots and blocks, especially upon lots bought by a party at a tax sale subsequent to the accruing of such back taxes.

2. An eighty acre tract of land was assessed as one tract from 1873 to 1880, and the taxes not being paid they were extended for each succeeding year as back taxes. In 1880 the land was forfeited for the nonpayment of the taxes for 1879. In 1880 the land was assessed as lots according to a plat in a proceeding for partition. In 1881 certain of the lots were sold for the taxes of 1880, there being no back taxes extended for the years 1880, 1881, 1882 and 1883, and the purchaser obtained a deed for the same. After his deed, in 1884, the county clerk extended a portion of such back taxes upon such lots: HELD, that he had no authority of law to extend such taxes.

The judgment nnder which Gage pnrchased made the amount due on the property at that time res jndicata: Williams v. Amroyd, 7 Cranch, 432; Graceland Cemetery Co. v. People. 92 Ill, 619.

Section 278 of the Revenue Law prohibits the bringing forward of the charge against these lots. See also Sec. 229 and 129. From these it appears that if the back tax is not brought forward from year to year, it shall not be brought forward against the land after it has changed ownership and become the property of one who does not owe the tax.

There is no provision in the law that will permit the clerk to extend back taxes npon one lot, which are brought forward from other or different property: Stamposki v. Stanley, 109 Ill. 210.

The only provision of law authorizing the clerk to extend back taxes at all, makes it imperative that they shall be extended with and form part of the current taxes: Stamposki v Stanley, supra; Neff v. Smith, 111 Ill. 100.

BUILDINGS MOVED.
re-silled and nnderpinned reasonably by experienced workmen. Country work solicited.
NB. We can dispose of frame Buildings on very short notice, as we have constant inquiry from parties who will pay fair price for same. Correspondence invited. Address:

ESTABLISHED 1846
MUNN & Co. PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequaled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free.

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York

Handbook about patents mailed free.

H. B. BRYANT'S
Chicago Business College,
SHORT-HAND INSTITUTE,
—AND—
English Training School.

1.—This is the largest and best equipped Business College in the United States.
2.—Young Men and Women are here made competent and put in the way of earning their own living.
3.—There are Two General Courses,—1, the Business Conrse; 2, the Course in Short Hand and Type Writing.
4.—Either course prepares one for Self-support, and the knowledge can be put into immediate use.
5.—The English Branches are also taught for the benefit of those who have negiected their early education.
6.—Graduates of High Schools and Literary Colleges need this Practical Training, and they patronize this College, as it furnishes the Highest Class of Instruction.
7.—Over $40,000 are expended annually in furnishing the facilities that this institution offers.
8.—Mr. H. B. Bryant was the senior member of the well-known firm of Bryant and Stratton, who established the chain of Colleges in 48 cities.
9.—Every Young Man and Young Woman needs the practical Training that this College affords.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, NOV. 27, 1886.

THE MARKET.

A remarkable good feeling continues in both the real estate and loan interests.

While there are no large deals or a great amount of business being transacted, it bodes no ill-omen as, it is but the natural course of the market.

Plans are being laid, however, and preparations are going on in anticipation of an early trade for the coming year. This accounts in part for the activity in acres, which has been manifest in the market during the past few weeks.

The favorite locations seem to be Lake View at the north and that property lying between the Illinois Central & Rock Island Railroad, 39th and 63d streets to the south.

The resources of the business district on Dearborn street, 3rd and 4th avenues and south of Van Buren, opened up and developed within the present year, seems to be more than necessary to fill the demands of the printing houses which have centered at this point. Other branches of business are expected to locate here. Effort will be made to direct the attention of New York houses to this location as the place for the establishment of their branch departments, many of whom are looking to Chicago with this in view.

Favorable reports come from South Chicago in regard to the business interests of that point. The mills are running full blast and give employment to larger numbers of men than ever. A prominent dealer in speaking of the trade in avenue property on the South side, reports an excellent market during the summer and fall months.

There has been a marked increase in the value of much of the property. In illustration of this point, may be cited: the real estate on Michigan Av. between 35th and 39th streets, which has increased over $100 a foot during the last year and commanded a large number of buyers at these prices.

The one point to be noticed in these sales has been the purchase for actual use and improvement.

A renewed inquiry is also noticeable in State St, property between 31st and 63d Sts. Several are turning their attention to this property and are ready to make large purchases. Property in the vicinity of the park and 51st street has received a new inquiry during the last thirty days.

The general impression is prevalent that there will be an improvement in the real estate of the avenues to the south after the 1st of January.

The lack of railroad facilities has caused the property between the Illinois Central and Rock Island Railroad to sell at prices lower than were bought fifteen years ago. But the prospect at present is toward an increase in its accessability to the city, which willdivert the attention of the public to this location.

Lindemann & Son have just opened up a subdivision between Nellie and Addison Avs Clark and Racine, comprising 67 lots, ranging in price from $550 to $1500. A depot is located at one corner of the subdivision

The firm report an upward tendency in the real estate of Lake View.

Gustavus Anderson has sold all the lots in the Culver's Park addition to Lake View, comprising 186 during the season. He has recently placed a new subdivision of 208 lots at Summerdale in Lake View.

Hannah & Hogg, saloonkeepers have leased the block on the southwest corner Madison and Halsted Sts, for five years at $18,500 per annum, they to make improvements.

Willoughby, Hill & Co. are looking for a building for a clothing house in same locality. Henry Beidler has leased 100x200 ft on W. Madison St. east of Sea's notion store to an eastern party for a theater to be commenced May 1, 1887.

PUBLIC IMPROVEMENTS.

A special jury from the Superior court have begun the examination of property in the line of the proposed extension and opening of Canal St. from Lumber st south. The plan is to open Canal st and connect Archer av and Hanover st, to be known as Canal st, and thus form a continuous thoroughfare between the West side and the city limits on the South. $75,000 will be assessed for the bridge at 21st St. and the river. The improvement to be carried through by the next appropriation bill to come before the council in January. This will give the city one more direct outlet on north and south streets between State and Halsted.

Commisioner Purdy has awarded the contract for paving Rush street, between Illinois and North Water street, with Cedar blocks on concrete founudation, to Jas. Conlan for $1.37½ per square yard. The highest bidder asked $1.66, and the indications are that only the concrete foundations will be laid this year, and the blocks placed in the concrete when the frost leaves the ground about May, 1887.

Dearborn Park.

The Board of Directore of the Public Library held a meeting recently, to discuss the disposition of Dearborn Park, owned by the Government which is willing to turn it over to the City of Chicago for public use.

The property is bounded as follows: On the north by Randolph st, on the east by Michican av, on the south by Washiugton st; on the west by Dearborn Place. If Congress will cede the property to the city for the use of the Public Library, it is proposed to erect buildings thereon suitable for library purposes.

GOING BACK ON CHICAGO.

Mr. Armour, the well-known pork packer of Chicago, in speaking in reference to the outlook of business, says "the day of Chicago's supremacy as a pork packing center will soon be a thing of the past. Kansas City, Cedar Rapids and other western points are fast taking business away from here. Take Kansas City, for instance: the price of hogs is 25c a hundred less than it is here, while her freight rates to all western and southern points are as low as ours and her freight rates to the Atlantic seaboard are only 12 or at most 15 cents a hundred higher. In other words, Kansas City's freight rates to markets where 90 per cent of our products are sold, are just as good as ours, while hogs are cheaper. What is true of Kansas City is true in greater or less degree of the other western points. It is a natural course of events. The corn belt has moved west and with it hog raising. It is history repeating itself. Only a few years ago Chicago took away the supremacy from Cincinnati and St. Louis. To show this is not idle talk brought on by present troubles, I will say I have not added a single brick to my packing house property here in Chicago, while in Kansas City, where I already had $1,500,000 worth of packing house property, I have built $300,000 worth additional this summer, and between now and next January will build another $300,000."

Special inducements offered to manufacturers.

LIMITING THE HEIGHT OF NEW BUIDINGS.

The Law a Dead Letter.

The law which was passed a year or more ago in New York, limiting the heigth of dwelling-houses to a maximum of eighty feet from the sidewalk, has, like so many others of the statutes which we pay our lesislators for composing, proved a dead letter. It is not quite settled yet whether it was born dead, or died immediatly after birth, but it is certain that it never showed any signs of life, and some doctors in the law assert that it never possessed the organs necessary to vitality. According to these learned men, the statute neither contained any provision for its own enforcement, nor mentioned any penalty for its violation; while, even if it had been fortified by these weapons, it was plainly unconstitutional, since it undertook to limit men in the enjoyment of their real estate, which in legal theory, extends from the surface of the ground on which its boundaries are drawn to that heaven where titles and taxes have no place; and moreover, even if it had been originally constitutional and vigorous, it was repealed immediately after its passage, by the passage of the General Building law of 1885, which contains precise provisisns for the thickness of walls in dwelling houses more than one hundred and fifteen ft high, under the rule that a subsequent statute abrogates and repeals all provisions incousistent with it which may be contained in those previously existiug. We have our doubts as to the unconstituionality of laws restricting the height of busildings, but our readers will observe that a law which never had any life in it, nor possessed any vital parts, and which could not exist, if it had possessed them in the pure, constitutional atmosphere of New York, and which, moreover, was killed immediately after it was born, need have no great terror for them, and, in practice the people who wish to do so build houses a hundred feet high or more with just as much freedom as they did before the statute was passed. Fortunately for the people of New York, the lofty apartment-houses once so popular are coming into disfavor. Their great cost, as compared with that of humbler structures, made them doubtful investments in any but the most fashionable localities, and the imfirmities of construction which some of those more carelessly or ignorantly designed have displayed perhaps cast discredit on the rest, so that a twelve or fifteen-story flat in a second-rate situation in New York is just now not a very desirable piece of property to own, and it will be many years before the fever for building them comes on again.—Am. Arch and Building News of Boston.

The attention of builders, contractors, real estate agents and property owners is desired, to the opportunity now offered by Larrabee & North, who are closing out their large and complete line of builders' hardware at greatly reduced prices. The firm are going out of the business, hence is found the cause of their present bargains in hardware.

—Couch shells cut in a variety of beautiful shapes, and decorated in oil colors, make very lovely receptacles for trifles; the cone-shape interior decorated with a landscape serves as a paper weight.

—Macreme lace, which once adorned the parlor mantel, has been banished to some cosy bedroom, where it is in better keeping with the pretty draped toilet-table, with its bright ribbons to correspond.

FOR SALE.

CHOICE INVESTMENTS.

HAVING for many years kept a record of most of the transfers and owners' names of all classes of business, manufacturiug and dock property, we can offer to investors and purchasers in our special line, superior advantages in selecting what they want. Many of the best bargains are secured by personal application to owners, who will not allow their property to be advertised for sale.

J. P. WHITE,

39 Washington-st., Room 10.

FOR SALE.

Do You Want a Home!

Would you like to purchase a house and lot on the easy-payment plan and be absolutely certain that should death occur your family will be provided with a home clear of all indebteduess aud also with a sum of money to help them through the most distressing time of their lives? If so, buy a home on the W. E. Catlin guarantee plan, which gives the purchaser the strongest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Peunock, either of frame houses and cottages, honestly aud well built, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles, at extremely low prices, on long time and easy payments, and positively guarantee that should you die during the continuance of the contract we will give your wife or heirs a deed to the property free of all incumbrance, and return them in cash all the money you may have paid on the premises. If you purchase a home on this plan and die during the continuance of the contract the property will cost you nothing. If you do not die you pay for the home just as easy as though this guarantee had not been given.

Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splendid opportunity to make money or get you a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26.

J. F. & C. P. KEENEY.

MORGAN PARK AHEAD!

Persons wishing beautiful suburban homes ready to move into by the first of May next, will do well to send for one of the pamphlets of Morgan Park property and houses, issued by Col Geo. R. Clarke, No. 205 La Salle St., which will tell all about the prices of houses and easy terms of payment.

For Sale or Lease.

BEST LOCATION IN SOUTH CHICAGO.

Our buildings and 3½ acres of Land, with two railroad tracks and track scales, etc.

This plant is reached by the C. R I. & P. and Pittsburgh and Ft. Wayne railroads, without switching charges, and is also connected with all other railroads by the "Belt" system. Will remove to our new works about May 1st.

REAL ESTATE LAW.

Alonzo L. Baker v Louis Rockabrand. Filed at Ottawa Oct. 6. 1886.

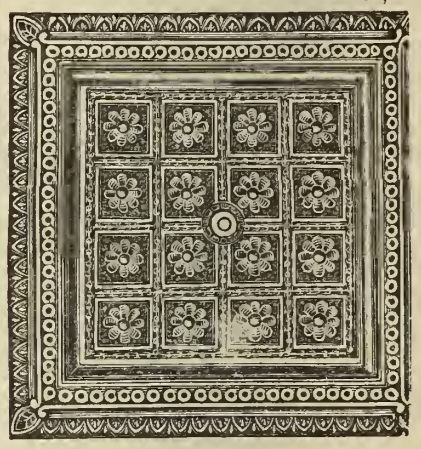
FRAUD—Where a false representation of any material fact is made by one party and the other, in ignorance of the truth, relies upon such false reprasentation, and is therby induced to enter into a contract to his injury, such representation will vitiate and avoid the contract; and if the injured party in apt time offeres to rescind and invokes the aid of a court of equity, relief will be granted and the parties restored to their original status.

A party exchanged land in this State, of which he was the equitable owner, for land in the State of Missouri, possession of such tract to be given on the first day of the following March. The owner of the Missouri land positively assured the other party that his land was in the possession of a tenant, whose term would expire on March the first next ensuing, when in fact the land was leased for two years longer at a nominal rent of $50 a oear. HELD, that for the false representation as to the leasing of the Missouri land and when possession could be lawfully had, the other party had a right to recind the exchange by tendering a re-conveyance of the Missouri land, and the fact that the legal title of the Illinois land had been in another, who conveyed to the defendant, was no impediment to the right of rescission.

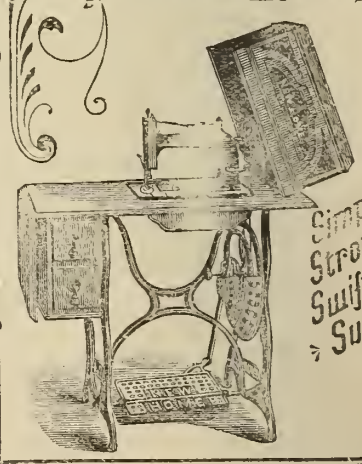
HOW TO DECORATE.

—Squares of gold lace are an extremely pretty addition to a plush chair.

—Small thermometers attached to brass toboggans are among the popular oddities.



—Italian wine jugs are now decorated with irridescent metallics or bronzes, and finished with fancy ribbon bows.



—A novel card receiver is a porcelain pug dog, holding in his mouth a brass umbrella.

—Square lanterns perforated and adorned with huge opals and agates of various colors find universal favor.

—While lacquered furniture is growing in favor, cretonne, figured in delicate shades of blue, rose, green and gray is the preferred upholstering stuff for such furniture.

BUILDINGS MOVED,
re-silled and underpinned reasonably by experienced workmen. Country work solicited.
NB. We can dispose of frame Buildings on very short notice, as we have constant inquiry from parties who will pay fair price for same. Correspondence invited. Address:
M. O'BRIEN, 3 Blue Island av., CHICAGO.

MUNN & Co PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequaled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free.

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York.

Handbook about patents mailed free.

CHICAGO, SATURDAY, DEC. 4, 1886.

THE MARKET.

A strong feeling was evident in the real-estate market of the past week, which was forcibly shown in the transaction of a large number of sales. The winter months, it is thought by many of the agents, will make a good showing, owing to a strong demand for inside property. The transactions in this class of real-estate are not affected by the seasons. A large per cent. of the demands and active purchases are made by investors out of the city, not only from New York, bnt from a large number of points in the various States.

The sale of the land on which a part of the Grand Pacific hotel is erected, to L. Z. Leiter, for $557,530, being 186 feet on Clark and 125 on Jackson street, is one of the largest transactions of the year, and according to the views of conservative real-estate dealers, a very lncrative investment for Mr. Leiter.

The sale was made by the P. F. W. Peck estate and is at the rate of $3,100 a foot on the Clark street front. In 1870, $1,000 a foot was considered a good price. The present rental brings only 3 per cent. on the investment, bnt at the expiration of the present lease, in 1889, Mr. Leiter can obtain a revaluation at 8 per cent. The rest of the land on which the hotel stands is owned by the Northwestern University and cannot be sold by them, as this is implied in the right of ownership.

A purchase amonnting to $85,000, was made by Matthew McCormick, on the northeast corner of Polk and Ellsworth streets, 283 feet, to the river.

The transfer of the southeast corner of Wabash avenne and Madison street, to A. A. Munger, for $275,000, was recorded this week.

John T. Lester deeded the plant of the Consumers' Gas Company to the company for $8,000,000—the largest transfer placed on record for the year.

The growing demand for acres to place on the market the coming spring, in subdivisions, has become quite a feature of the market, and will make the year of 1887 noticeable for the sale of this class of property.

The profits accruing from investments in acres for subdividing, is largely dependent upon the proper management of the subdivision. In fact, almost as much is due to this as to the location of the subdivision itself. This is illnstrated in every direction by snbdivisions well selected, which have become a drng in the market through injudicious management, while others, with far less inviting surroundings, have proved a paying investment to seller and buyer alike through carefnl handling. There seems to be two ways in vogue in the management of subdivisions at the present time. In the one case, owners place their property in the market in a crnde state, expending no more than is necessary for subdividing, and selling to everybody, regardless of the purposes to which the property is to be pnt.

In the other case, the snbdivision is first made attractive by improvements, snch as the planting of trees, laying of sewer and water pipes, grading and macadamizing of streets, building sidewalks, and the establishment of building lines, all of which must sooner or later, be performed by the individual buyers if not thus undertaken. Of the methods, the latter seems to meet with better resnlts. While the lots of the latter must be sold at a sharp advance over the former, experience shows that bnyers are more readily secured for the higher price lots with all the improvements included. A limit to the character of improvements has also been successfully enforced in several subdivisions lately placed on the market.

This plan of improving and establishing a building limit before selling, has been adopted in the Lane Park subdivision at Lake View, with great success. The same has been done at Eggleston to the South, formerly the 71st st. Station, in the Eggleston snbdivisions.

This is also one of the strong points made in a subdivision at Elsdon Station, on the Grand Trnnk Railroad, where lots are sold inclnding improvements in the way of trees, crnshed stone pavements, etc.

A. B. Anderson & Co., of Lake View, report a strong demand for Lake View property, their sales in November comprising largely lots, amounting to $14,000.

H. I. Goldy has jnst returned from a trip to the East.

Great interest is manifested by the West Side pnblic, and in bnsiness circles on the South Side, in the proposition made by the Pennsylvania company, operating the Pitts bnrgh, Fort Wayne and Chicago railway, to the city with reference to the proposed draw-bridge at Jackson st., and the widening of Stewart avenne. This proposition was set forth in a communication made by Mayor Harrison to the Council at its meeting one week ago, when an ordinance was submitted in accordance therewith and referred to the committees on railroads and harbors and bridges. The committees were instrnct-ed to present a report on the following Monday evening, and their action in the premises is awaited with a good deal of interest, not only by the railroad, bnt by all who are anxious for a speedy enlargement of the facilities of communication between the South and West Sides, which means a majority of the population of Chicago.

The following terse thonghts are worthy of reading and consideration: "Individnal possession of the soil is not only one of the best guarantees of pnblic safety; it is eqnally promotive of good citizenship. Men who own property are snpporters and respecters of law; self-interest, to say nothing of dnty or patriotism, impels them to the npholding of government. Tnrbulance and strife find little sympathy in well-settled communities—mobs are organized by those who have nothing to lose. This class is the disorganizing force in society. The strong arm of governmental power alone keeps them in check.

"Tax-paying and self-respect go together. Proprietorship exerts influence, infinence adds dignity, and dignity, by the exercise of a natnral law, increases self-respect. There is a pardonable degree of pride felt in the lawful possession of property. There is a glow of satisfaction in owning the roof-tree that shelters.

"The honse, the gronnd, the farm acquired by individual effort, is an endnring testimony to the frnit of honorable toil. They possess intrinsic valne. They are a safe permanent investment. They are not snbject to the depreciations and fluctnations that suddenly destroy valnes in other forms of wealth. They, in all ages, in all countries and nnder all conditions, have a snbstantial valne. For this reason, honses and lands are denominated real-estate.

"As possession of property, therefore, invests citizenship with new dignity and inflnence, and tends to the formation of pnblic safety, it should be the aim of every young man to acqnire real-estate.

"As absolute ownership of homes saves the family from many of the ills incident to changing fortnnes, what higher indncement can be offered than for the head of the honsehold to be sole proprietor of the house or cottage?"

Special indncements offered to mannfactnrers.

THE REAL ESTATE BOARD.

Chicago, Dec. 1, 1886.

The regnlar monthly meeting of the Board was called to order—President, E. A. Cummings, in the chair.

The following members were present: Messrs. F. R. Chandler, E. A. Cnmmings, E. S. Dreyer, D. M. Erskine, N. T. Gassette, F. C. Gibbs, F. A. Henshaw, M, R. Barnard, C. L. Hammond, R. C. Giddings, J. L. Lombard, Jas. M. Marshall, A, B. Mead, Wm. A. Merigold, S. M. Parish, W. L. Pierce, Frank Riedle, Edgar M. Snow, Geo. L. Warner, H. C. Morey, F. A. Bragg, and C. U. Gorden.

The minutes of the previons meetng were read and approved. The membership committee annonnced the name of Arthnr C. Gehr for agent membership.

On motion of Mr. Lombard, it was moved that the chair appoint a committee of three to prepare a ticket for the next annual election.

Mr. J. L. Lombard gave notice that he wonld offer an amendment to Article II. of the by-laws at the next meeting.

The chair appointed Messrs. J. L. Lombard, H. C. Morey and Geo. L. Warner members of the nominating committee.

On motion of Mr. Lombard the following communication was nnanimonsly adopted:

Resolved, That the Real-Estate Board of Chicago cordially approve the general principle of the measnre introduced into the Common Conncil by Alderman Cnllerton, looking to the closing of the bridges in the daytime, and believe, if to this is added the complete lighting of the river by electricity at night, and the proper regnlation of the passage of vessels at that time, it is the one practical way to abolish the bridge nnisance and at the same time preserve onr large river commerce, with its attendant mannfactories, elevators, lnmber yards, etc.

On motion of Mr. E. S. Dreyer, Mr. Pierce was appointed Chairman of the Banqnet Committee, with power to select two associate members.

There being no fnrther business before the Board, on motion, the Board adjonrned.

LAKE AND SOUTH WATER ST. PROPERTY IN DEMAND.

There is a prospect of some activity on Lake and Sonth Water streets. The former street contains many properties that yield a large percentage on their market value. The expense acconnt of the bnildings is small, because the business done there reqnires only the least expensive interiors. And then the demand for accommodations by commission men is considerably in excess of the snpply. Lake street has for a long time been snffering from the removal of business interests to other parts of the city, but there has of late been a reaction in its favor. Many of the best buyers will not look at any property north of Madison street, but the recent demand for holdings on these streets nearest the river indicates that the time is not far distant when the part of the city which received snch a blow from the migration of the Board of Trade sonthward will recover from its depression. Many changes in bnildings will be made in the next year or two to adapt them to the retai trade.

Real Estate for Sale.

BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

(o)(o) —— (o)(o)

—(o)(o) Do You Want a Home! (o)(o)—

(o)(o) —ℬ— (o)(o)

(o)(o)(o)(o)(o)(o)(o)

Would you like to purchase a house and lot on the easy-payment plan and be absolutely certain that should death occur your family will be provided with a home clear of all indebtedness and also with a sum of money to help them through the most distressing time of their lives? If so, buy a home on the W. E. Catlin guarantee plan, which gives the purchaser the strongest guarantee ever given in a real-estate transaction. We will sell you a home at Hermosa or Pennock, either of frame houses and cottages, honestly and well built, after the most approved plans, each built on two lots, 50 ft. front, a number of different styles, at extremely low prices, on long time and easy payments, and positively guarantee that should you die during the continuance of the contract we will give your wife or heirs a deed to the property free of all incumbrance, and return them in cash all the money you may have paid on the premises. If you purchase a home on this plan and die during the continuance of the contract the property will cost you nothing. If you do not die you pay for the home just as easy as though this guarantee had not been given.

Hermosa and Pennock are only six miles from the court-house, on the C M & St. P. R. R. Plenty of trains; 6 cts. fare; only one mile west of Humboldt park; will have the street-cars here in a few months; splendid opportunity to make money or get you a home. Call and see the property free.

☞ Offices at depot in Hermosa, at 913 North-av., and 94 Washington-st., room 26.

BUILDING HOUSES FOR TENANTS.

One of our exchanges makes a suggestion to architects and builders that ought to be quite unnecessary, and one would deem it so, if he were unacquainted with the facts which call forth the good and urgent advice. The suggestion to the effect that houses standing near each other should be so planned that the occupants of one can not look into the other through doors and windows. The evil, of course, exists mainly in city houses built upon narrow lots, and generally by landlords who think not once of the comforts of their tenants. The saving in building in this manner is such as can be effected by using one plan over and over again, while the discomforts are often so great as to turn tenants away. The subject has also a sanitary bearing, for when it becomes necessary to exclude sunlight for the sake of privacy we invite many forms of disease of which sunlight and pure air are certain prophylactics. Landlords are supposed to be indifferent to these apparently minor interests of tenants, and therefore the architect has a duty to perform which may clash with the wants and interests of his client, but he should be firm in his insistence of planning aright if he plans at all.

—Table scarfs are finished in all kinds of plain and fancy silks, satins, ribbons, etc.; a very pretty one, an etamine scarf in the centre, with ribbon of three shades of orange sewn on either side—the ends of the ribbon are finished with gilt acorns.

The Provinces,—Reports have just been issued showing the exports of lumber from the St. Lawrence to South America during the season of 1886. The total shipments were 29,088,204 feet (21,782,604 feet of pine and 7,305,600 feet of spruce) and 548,880 pieces small stowage. Montreal contributed thirty-one vessels containing $21,384,160 feet and other St. Lawrence ports fourteen vessels with 7,704,044 feet. The exports show a decrease of 2,256,000 from 1855, a decrease of 7,850,000 feet from 1884, an increase of 10,319,000 feet over 1883, an increase of 4,668,000 ft. over 1882, an increase of 25,651,000 feet over 1876, a decrease of 6,985,000 feet from 1873, and an increase of 3,943,000 over 1870. The aggregate exports for seventeen years were 334,529,417 feet.

REAL ESTATE LAW.

Annie Harris v Daniel McIntyre et al. Filed at Ottawa, Oct. 5, 1886.

Equitable title by possession.—The open and visible possesion.—The open and visible posession of land by the equitable owner at the time of a conveyance by the holder of the legal title, and the giving of a mortage by his grantee to secure a loan, will be sufficient to charge such grantee and mortagee with notice of the rights of the equitable owner.

The possession which will protect the holder of an equitable title, must be such as to put purchasers upon an inquiry, which, if followed, would lead to notice of such title.

SAME—Circumstances which would put an ordinarily prudent and cautious man upon inquiry as to the claim or title of another to a tract of land, will charge him with notice of such facts as a diligent inquiry would have disclosed.

4. SAME—Possession when not notice.—A widow furnished her bachelor brother with $1,600, with which and $500 advanced by him, to buy a farm for their joint use, the title to be taken to each in proportion to the sums advanced by them respectively. He however, took a conveyance to himself, and they both moved upon the place in 1869, he managing the land and she keeping house for them. The deed was recorded, and it appeared that he borrowed money and had mortgaged the land to secure the loan, and had been held out to the world as the owner for a period of over ten years, during which time the sister took no steps to have her equitable rights enforced or asserted. HELD that her possession under such circumstances was not such a possession as would charge a purchase or subsequent incumbrancer from her brother with notice of her equitable rights.

RESULTING TRUST—Mortgage by the trustee as affecting the beneficiary.—Where the facts are such that the law raises a resulting trust, the execution of a mortgage on the premises by the holder of the legal title without the consent of the cestui que trust, will not defeat the right of the latter to enforce the trust as against the former.

SAME—When it arises.—Where a person purchases a farm for $2,100 of which he furnishes $500 and his widowed sister the balance, under an agreement that they shall own the same in the proportion each pays, and he, acting for both, takes the title to himself in fraud of her rights, he will hold the same in trust for her in the same proportion the money she paid bears to the whole sum paid. The fact the money is paid in pursuance of a prior express contract will not change the rule.

A resulting trust arises by implication of law where land has been purchased with the money of one person and the deed taken to another, who is a stranger; that is, one not a wife or child or standing in that relation.

If a joint purchase is made in the name of one of the purchasers and the other pays his share of the purchase money, equity will lay hold of the circumstance of the title being in one only, and a resulting trust will be declared in favor of the other for his share.

Where a person, under a verbal agreement with his sister, bought a farm for $2,100, of which he furnished only $500 and his sister the balance for their joint benefit, but he fraudulently took the conveyance to himself, and they both shortly after their purchase in 1869, went upon the land making it their home, and the brother gave incumbrances on the premises without the knowledge or consent of the sister, and it appeared that she reposed great confidence in him which he shamefully abused, and it appeared that she remained upon the place all the time in the belief that she owned the greater interest in the same. until in 1881, when she filed her bill to have a resulting trust declared and to set aside a conveyance made by her brother to one having notice of her equities, and for partition, it was held, that she was not barred of relief by her delay in filing the bill, it clearly appearing that she was kept in ignorance of the fraud practiced upon her until shortly before filing her bill, and that there was no possession hostile to her rights.

RESULTING TRUST—Partition—Decree as to innocent incumbrances,—Where a person holding the legal title to a tract of land 5-21 parts in his own right and 16-21 in trust for his sister, fraudulently conveyed the entire property to a brother, who had notice of his sister's equitable title, and that brother gave a mortgage or deed of trust upon the whole land to one having no notice of the sister's rights: Held. on bill to declare and enforce the trust and for partition, that the court should have found that complainant was the owner of 16-21 parts of the land and the second brother of the remaining five parts, and made partition accordingly, subject to the lien of the deed of trust, and requiring that the interest of the brother of 5-21 parts be first sold before resorting to the interest of the sister.

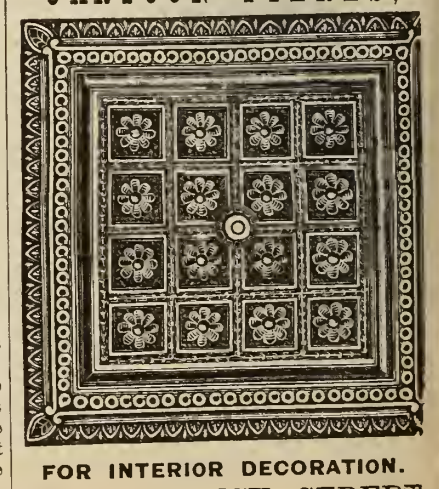
A MOUNTAIN OF IRON.

Marble Hill, two miles from Phillipsburg N. J., has been purchased by a number of, Philadelphia capitalists from Henry Fulmer of Easton, and a large force of men has been put at work digging ore. The character of this ore is a choice red oxide, analyzing in metallic iron from 55 to 70 per cent. The oro is of the Bessemer quality, and shows up in true vein form. A recent blast showed a vein twenty three feet wide, and the indications are that this mine will be. one of the largest developed in New Jersey, A monster engine will be erected at the mine and larger machinery to increase the output to four thousand tons per month is being constructed. It is externally a mountain of iron, and all indications are that it is inexhaustable. The profits to the fortunate stockholders are likely to be large, as the cost of delivering the ore on the cars, on account of the nearness of the tracks of he Penn sylvania Railroad will be about one half that of most of the mines in other parts of Warren county. The capital stock of the company is $500,000.

HOW TO DECORATE.

—Billiard cloth is an excellent foundation for a lambrequin.

—An inkstand in perfect imitation of a silver fox, with head of richly chased silver, is a novelty.



—The newest bottles for aromatic salts are made of antique silver, chased in Etruscan designs.

—Pine cones make pretty drop and fringe decorations for the edges of lambrequins, table scarfs, etc., and are rich and unique looking when carefully gilded.

—Loose cushions made of the new greenish gray-blue shade in which plushes are brought out this season, are extremely effective decoration for white painted furniture.

—Brass is a beautiful as well as a durable metal, and eminently worthy of the prominence and popularity it has attained. Clocks are made of brass, the tops of bric-a-brac tables, wall racks, brackets, and an immense number of useful household articles, not to speak of gas fixtures, which are brought out in every conceivable form and shape.

BUILDINGS MOVED,
re-silled and underpinned reasonably by experienced workmen. Country work solicited.
NB. We can dispose of frame Buildings on very short notice, as we have constant inquiry from parties who will pay fair price for same. Correspondence invited. Address:

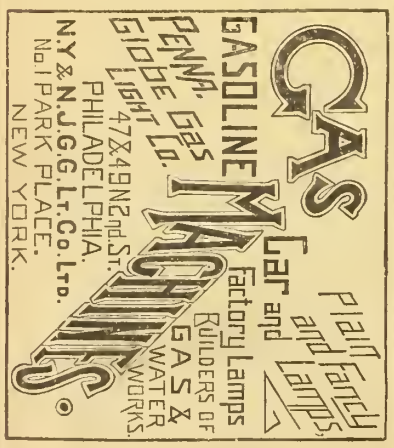
ESTABLISHED 1846
MUNN & Co. PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequaled and their facilities are unsurpassed.



Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free.

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York.

Handbook about patents mailed free.

CHICAGO, SATURDAY, DEC. 11, 1886.

THE MARKET.

The summaries of real-estate transactions for the last two weeks show unusually large amounts. Of course it is understood by our readers that the official transfers in our columns at this date represent sales really consummated from two to four weeks ago, on account of unavoidable delay in completing abstracts. Transactions for the past week were of average size throughout, but the transfers which swelled the total to such enormous proportions are as follows:

The sale on Water street, 80 feet west of La Salle, by Mathew Laflin, et al., to the Western Warehouse Company, for $112,000. Elevators A. and B. and Crib C., near I. C. depot, by Ebenezer Buckingham to Illinois Central Railroad Co., 462,225. The Clark street frontage of the Grand Pacific Hotel property, 186x125 feet, estate of P. F. W. Peck to L. Z. Leiter, $577,530.

Acres are in demand, as will be seen by our report under Suburban Warranty Deeds.

The demand for real-estate seems not to have abated any during the past week, notwithstanding the fact that the market is carried further into the winter season.

With an aggregate of about ten million dollars in real-estate transactions for the first week in December, and a number of large sales recorded for the second, the showing for the month will be of a very flattering nature and put a different phase in what has heretofore been called a dull month for real-estate agents.

H. A. Hurlburt notes an increase in the number of applications to pay off mortgage indebtedness which has heretofore been carried.

The actual purchase of real-estate in Chicago as a means of investment, has grown to a large extent during the past few years and has become a characteristic of the market. This accounts in a measure for the decrease in the number of first-class loans, which have been very few during the fall months. In regard to the amount of money from the East seeking investment in Chicago, Mr. Hurlburt further said, "that, while the year would show an increase over previous years in the amount of such investment money, there has not been near the amount invested on account of the anarchist troubles in the spring. The idea is still prevalent in New York, Boston and other points, that Chicago is yet liable to suffer from these men. To a Chicagoan, this seems hardly credible, but recent correspondence verifies this statement. Considerable money in New York is being placed there in "call loans," with security in bonds, stocks, etc. This class of investment pays 6%. The ruling rates of interest here are 6 and 7 per cent., as compared with the rates of 5 to7 per cent. during the spring months."

Considerable annoyance has been felt, both by property-owners and real-estate agents by the almost innumerable number of persons who are dabbling in the negotiation of real-estate sales. They are the means in a large per cent. of cases, of breaking up the deals which have already been set on foot. They pay no license for this privilege. Thus the business of the legitimate agent is interfered with, and no protection is offered him in return for the license which he is required by law to pay. Another reason for protection is found in the amount of money invested in their business. Few, outside the real-estate business, realize the amount of money necessary to equip a real-estate office and properly carry it on. A visit to some of our prominent real-estate offices will show several sets of atlases for city and suburbs, and maps for every section of the city and its surroundings, worth all the way from two to five thousand dollars. Besides this outlay, a record of sales, values, owners and buyers is kept, at an outlay of a large amount of labor and money. Several of these records, covering a period of a number of years, could not be bought for less than ten thousand dollars, and doubtless would not be sold at that. This does not include the thousands of dollars spent every year in advertising and establishing a business.

J. Robson Weddell has just returned from California. He is now preparing to place in the market a new subdivision of 96 lots at the junction of 47th and Kedzie ave. Improvements will be made by the owner and the subdivision will be in every way complete. There has been quite a movement in property in this locality. Several other subdivisions have been opened up.

At South Chicago, a new bank has been established, with Messrs. C. F. Swan, C. A. Sands and C. P, Wilder as incorporators. Mr. Swan is an old inhabitant of South Chicago. Mr. Sands is the son of the prominent lumberman of Manistee, Mich., and Mr. Wilder has been connected for a long time with the real-estate interests of South Chicago.

A. Krimbill, of that place, reports a very encouraging outlook for the spring trade. Several important railroad negotiations are now under way.

Drury Bros. have recently opened up an office for the transaction of a general real-estate business.

JACKSON STREET BRIDGE.

At last Monday's meeting of the Common Council the Jackson Street ordinance was taken up as a special order. Both reports were read, after which Ald. Clark moved to substitute the minority for the majority report. Ald Colvin favored the latter, which provided for the proposed roadway on Stewart avenue, south from 22d street, and for the railway company to build the viaduct approaches, and fixing the speed of its trains at ten miles an hour. In consideration of the fact that the Railroad Co. would get two tracks into the city, and that it would get all the benefits, and the city would in return only receive the right to use the land at Jackson street, over which to swing the bridge, the ordinance was amended so as to provide for the erection of a stone or brick wall instead of board fence; giving the company one year to perfect the improvements. requiring Stewart avenue to be opened to Twenty-second street; reducing the rate of speed to ten miles an hour, and compelling the company to pay the damages, cost and expense of constructing and maintenance of any and all viaducts and the approaches thereto, including a viaduct at Archer avenue. With these amendments the ordinance was ordered to be reported to the Council in the evening, when it was passed, loaded down so as to defeat the wishes of the railroad company and others interested in the scheme as originally proposed.

Ross Irving.
W. E Wyatt & Co., Roofers.

This list will be extended to include a score or more of dead-beats who have imposed on us and other Journals.

SUBURBAN IMPROVEMENTS.

HYDE PARK.

Bills for public improvements were presented to the Board of Trustees, amounting as follows: On special funds, $16,959.54; general funds, $16,138.41; total, $33,097.95. A petition was presented asking that Indiana ave., between 55th and 63d sts., and 60th street, between State street and South Park avenue be improved.

The proposed ordinance giving the Chicago City Railway the privilege of constructing a "loop" cable line at South Park was discussed. Remonstrances were received from a large number of South Park property owners, the Illinois Central Railroad Co., the Board of Education of district No. 1, and the Park Club of South Park.

LAKE VIEW.

The Board of Trustees held a meeting Monday afternoon. The petition of W. C. Goudy, asking for a reconsideration of the ordinance opening a street from Fullerton avenue to St. James place, was placed on file. The petition for curbing, grading and macadamizing Clark st., from Diversy st. to Graceland avenue, was referred to the committee of the whole. Ordinances were passed for the improvement of Evanston avenue, from Belmont avenue to Addison street; for the improvement of Halsted street from Fullerton avenue to Clark street, and for the improvement of Clybourn avenue, from the Northwestern railroad track to Belmont avenue.

EVANSTON.

The petition for the extension of the fire limits one block south of Lake street, was reported adversely, and the committee's report approved. An ordinance for the grading, claying and graveling of Grove street, from Wesley avenue to Judson avenue, was passed, the Commissioners estimating the cost of the improvement at $4,214. The attorney was instructed to draw an ordinance requiring a permit from the village for the erection of new buildings. Also an ordinance assessing the water tax against the property instead of the owner or occupant thereof. The village of South Evanston asked the privilege of tapping hydrants for the purpose of filling their cisterns. It was said that the artesian well water of South Evanston was unfit for laundry purposes, and something of this kind was necessary. They were willing to pay a fair rate for the water used. The superintendent was authorized to sell water to water carriers at the works, but permission to tap any of the hydrants was refused. The question of paving material for Davis st. was discussed, and the general sentiment was in favor of putting in white cedar blocks. The cost of the improvement is estimated at $14,500.

—Small tables, upholstered in cloth or plush, edged with chenille crescents, are fitting repositories for bringing out the strong points of marble, alabaster and terra cotta statuettes.

Real Estate for Sale.
BONA-FIDE LIST.

FOR SALE—DREXEL-BOULEVARD.

We can offer for sale on Drexel-boulevard. north of Forty-seventh-st., two very choice corners at reasonable prices.

Also between Forty-eight-st. and the head of the park at Fifty-first-st, we can offer to gentleman desiring choice residence grounds on this matchless throughfare, opportunity of selecting from several very desirable tracts.

Recent sales to purchasers for early improvement, and the costly dwellings already under construction in this boulevard south of Forty-fifth-st., indicate the great desirability of this quarter,

It is becoming a general admitted opinion that Drexel-boulevard at this locality is the finest residence quarter in the world.

BOGUE & HOYT.
182 Dearborn-st., Room1, second floor.

FOR SALE.

CHOICE INVESTMENTS.

HAVING for many years kept a record of most of the transfers and owners' names of all classes of business, manufacturing and dock property, we can offer to investors and purchasers in our special line, superior advantages in selecting what they want. Many of the best bargains are secured by personal application to owners, who will not allow their property to be advertised for sale.

HOW TO DECORATE.

—Sprays of grass may be beautifully frosted by dipping them in a solution of gum-arabic and sprinkling them with powdered glass.

—Persian silk and bolting cloth are materials used for decorative scarfs; they may be painted or embroidered, and are susceptible of various artistic arrangements.

—The revival of brass as an ornamental accessory to furniture and the furnishing of our apartments, has already shown itself to be unlike the usual run of fashionable freaks, inasmuch as it promises to be permanent and fixed. Brass bedsteads please the popular taste; they are shown in plain styles and with canopy frames. Brass tables with ivory tops are considered very elegant, and many of them have chairs and drops attached to the corners. Clocks are made of brass; the legs of ornamental tables, curtain rods, candlesticks, in fact brass is being put into shapes never heard of before, and in a variety of household articles has taken the place of wood and other metals.

BUILDINGS MOVED.
re-silled and underpinned reasonably by experienced workmen. Country work solicited.
NB. We can dispose of frame Buildings on very short notice, as we have constant inquiry from parties who will pay fair price for same. Correspondence invited. Address:

ESTABLISHED 1846
MUNN & Co PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequaled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free.

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, DEC. 18, 1886.

THE MARKET.

Business still keeps up and a remarkably good feeling is prevalent in real-estate circles. The inquiry for real-estate remains firm and is followed by the recording of a considerable number of transfers. The sale of lots, ranging from $750 to $1,500, is still active; in fact, more than could be expected at this season of the year, and indicates a favorable turn of the market in this direction during the coming year.

The feverish condition of the stock market in New York, together with that of our own stock market, has tended toward the withdrawal of money for loans in real-estate securities, and hence tightens the money market and raises the rates of interest; for money is being loaned out at call on stocks as securities with rates as high as seven and eight per cent. For instance, a $200,000 loan was recently made at seven per cent., where $800,000 in stocks were put up as security, the loan being subject to call. As illustrative of this point in its effect on real estate transactions, an offer was made two months ago, of $50,000 for a piece of real-estate paying six per cent., but for some reason failed to go through. The same piece was offered this week to the same party, who had been anxious for it, but he refused to purchase now as his money was bringing him larger returns than a six per cent. real-estate investment. In New York, on Wednesday morning, as high as 15 and 20 per cent. was obtained for the use of money, on account of the drop of several points in the value of stocks.

But this of course only has a bearing in a certain class of money, largely speculative, which seeks real-estate or stocks for security according to the respective markets. Whatever effect this change of securities to stocks has on the loan market is only temporary.

Reports show a scarcity of North Side vacant residence property for sale in the market. As a result of this, the purchase of residences has increased. There are two sections, however, in which there is vacant property yet in the market. One lies north of Schiller, south of Lincoln Park and east of State street. The other is bounded by Erie and Ohio streets, St. Clair and the Lake. The improvements made in North Side residence sections have been of a very high character.

W. D. Kerfoot & Co. report a steady demand for real-estate. The sale of lots is especially active.

Malcolm McNeil & Bros. note a stiffening in the rates of interest on loans.

H. C. Morey & Co. believe business is all hat could be expected at this time of the year.

M. A. Farr reports the erection o forty houses between Fortieth st. and Moreland, in the district in which the West Chicago Land Company's land is located.

Ira A. Eberhart has sold, since the 1st of August, 175 lots in his subdivision at Chicago Lawn, situated on the Grand Trunk Rail road.

Edward G. Smith has recently opened up offices in the Adams Express Building for the transaction of a general real-estate business.

The West Side Railway Co. are contemplating the building of a line on Ashland avenue, commencing at Clybourn avenue bridge and running south to Twenty-second street, there connecting with the Blue Island avenue line. Wood street will be used part of the way. The need of such a line has been felt for a long time and would doubtless be much traveled on.

The Cook County Abstract Co. have recently turned out an original abstract for the Blue Island Land Company, of 657 pages, and furnish 1,000 printed copies of the same. The abstract is of interest as being one of the largest for many years.

The new theatre to be erected on the site now occupied by Sackett & Wiggins's Wonderland, corner Congress and Halsted streets, is to cover a lot 73 by 123 feet. The ground has been leased for 99 years. Parlors, retiring rooms, and a smoking-room for gentlemen, will be special features. There will be three galleries, and the top one, which will contain 700 seats, is to have the price of admission 10 cents. The next below will contain 800 seats at 20 cents each, and the first gallery will have 800 seats at 30 and 35 cents each, while the parquette seats will be sold at 50 cents, and 200 box seats at 75 cents each.

NEW BRIDGE FOR RANDOLPH STREET.

Chief Engineer Artingstall has furnished Commissioner Purdy with the plans and estimates for a new double roadway bridge across the river at Randolph street. According to the surveys made it will be necessary to widen the Chicago River from Lake to Randolph streets, which will necessitate the condemnation of 19,070 square feet of land, which must be taken from the side now occupied by the Star and Crescent Mills, on the west side of the river at Randolph st. Mr. Artingstall estimates that the machinery, protections and approaches for the proposed bridge will cost $150,000; the changes on the roadway and sidewalks of approaches will cost $25,000, and widening the river, dredging, etc., will cost $15,000 more. He does not estimate the value of the land necessary to be condemned for this purpose, but the Finance Committee of the Council will report in favor of this bridge in the next appropriation bill.

* * *

GROWTH OF AMERIOAN CITIES.

Engineer Hering has prepared a diagram showing the growth of the larger cities of the country, which will be used in his annual report. It represents by curves the population since 1790, and makes up the figures of the respective municipalities by including adjacent towns and natural suburbs, which is the only method, in his opinion, by which the true growth of the great centers can be computed. The New York center includes Brooklyn, Jersey City, Hoboken, Newark, and other suburbs, and Chicago the territory from Hyde Park to Evanston. The diagram shows that the character of growth of the different cities permits them to be divided into two distinct classes. Philadelphia, Boston, St. Louis and Cincinnati show very much the same character of increase, and represent by comparison the more conservative communities. New York and Chicago, on the other hand, show not only a remarkable resemblance to each other as compared with the other cities, but form quite a contrast to them, and might be called the more progressive communities. The diagram finally indicates the time when the curves, which was the lowest one prior to 1864, intersected in turn those of St. Louis, Cincinnati, Boston, and that there is a high degree of probability of its intersecting the Philadelphia curve in or before 1891.

The following table will give an idea of the growth, starting with Chicago's earliest day:

Year.	New York.	Philadelphia.	Chicago.
1830.....	238,799	188,797	45
1840.....	398,554	261,498	4,470
1850.....	766,720	432,328	33,462
1860.....	1,332,711	599,773	122,732
1870.....	1,760,192	706,811	321,460
1880.....	2,303,586	894,912	572,550

The statistics are brought down to 1880, but since then, Chicago has gained over 200,000 in population. Calculating, however, from the diagram, it appears that in a few years Chicago will be the second city in the country.

SUMMARIZING THE TRUST DEEDS AND MORTGAGES.

The work of preparing a summary of the Trust Deeds and Mortgages to show the amount of money loaned on Cook County real-estate and personal property, is progressing satisfactorily under the supervision of the publisher. The Journal will endeavor to make a full and complete report of the past year's business in real-estate and building operations.

Those who have allowed their files to become broken should at once ascertain the missing numbers and send to this office for them, as they will be more difficult to obtain after January 1 than now, as they are then bunched and packed away to make room for the files of another year. By ordering the files direct from The Journal office you will save money and more readily secure missing copies.

Contracts not let; Also Mr. Callahan will erect a three-story store and office building 16x64 ft., in the same town. same architect. It will be built of common brown stone and cost $4,000.

SUGGESTIONS FOR AN AMERICAN STYLE OF ARCHITECTURE.

BY JNO. MOSER, OF THE ARCHITECTURAL BUREAU.

In places where small ornaments are needed, as in stopping off a moulding, some simple naturalistic leaf or combination of flowers had far better be employed than the old time ginger-bread work. And if in the use of these naturalistic decorations the original flower or leaf is as faithfulley represented as it can be in stone, and originality is displayed in the selection and grouping of the plant, eminently satisfactory designs can be secured witheut drawing upon the models of any of the old schools.

A composition all architecural is danger of appearing tame, and a composition all naturalistic is, on the other hand, very apt to seem wild, But if the two sources of architectural beauty are harmoniously, thoughtfully and judiciously combined, the one relieves the other, and the joint product is beyond either criticism.

To recapitulate the several points which must be observed by American architects, if they are to found a school of their own—(1) they must aim to unite the quiet serenity shown in the Greek with the heaven-aspiring tendenyc of the Gothic; (2) the proportions must be as agreeable and the whole as graceful as the French,as vigorous as the English, as refined as the Florentine and as systematic as the German; (3) the conventional and naturalistic decorative forms must be employed as above laid down, making the decorations tell as interesting a story as possible; (4) every detail must tell of earnest thought and solid study. If these suggestiones are followed out, the time may come when foreigners will copy as eagerly from us as we now do from them.

Persons wishing beautiful suburban homes ready to move into by the first of May next, will do well to send for one of the pamphlets of Morgan Park property and houses, issued by Col Geo. R. Clarke, No. 205 La Salle St., which will tell all about the prices of houses and easy terms of payment.

CABLE CARS FOR DEARBORN ST

A meeting of property owners was held on Tuesday afternoon at No. 93 Dearborn St. for the ostensible purpose of protecting the interests of the proposed property holders street railway from being absorbed by Mr. C. T. Yerkes who had already gained possession of the railway rights on Dearborn St. About 1,400 feet of property was represented by the gentlemen present. It is the purpose of the proposed railway scheme to to offer to property owners an oppertunity to coustruct a double track street railway from South Water to Polk St. and thus make Dearborn st a railway center, which it is claimed will increase the value of property.

The stock was to be divided among the owners at the rate of ten shares for every front foot of real estate, and it was to be so arranged that no railway company could possibly obtain possession of a cent's worth of stock. The north side company now wants the franchise to run a cable road over a portion of the street. This would cut up the street so badly thst it would be a detriment rather than an improvement to the street. If a cable road was constructed Mr Silverman was in favor of allowing horse crrs to run over it. Andrew Crawford who was one of the committee which had the preliminaries of organization in hand very carefully reviewed the history of the property holders' railway from its inception to the present time. Several meetings had been held, and after consultation with several railroad men it was determined that the enterprise was impractical.

William Borden was strongly opposed to the proposition of Mr. Yerkes unless the North side people would agree

TO BUILD A DOUBLE-TRACK BRIDGE

across the river at Dearborn street. He should go a step further and insist that if they built the cable road, they pay for the paving of the street. Before Mr. Yerkes had taken an interest in the matter, eontinued the speaker, the directors of the Union eompany had attended strictly to the interests of the company, but as soon as he appeared on the scene, the directors forgot all about the company and it was a matter of serious difficulty to get any of them to attend any meetings.

The general sentiment of the meeting was against the use of Dearborn street for cable cars and many of the property owners are opposed to having any street car line whatever on the street as it is essentially an office street.

SUBURBAN IMPROVEMENTS.

FOURTEENTH STREET BRIDGE.

The City Engineer has completed his surveys for the erection of a bridge across the river near Fourteenth street, and recommends the following plan: That a good crossing can be made between Fourteenth and Maxwell sts., and between the "Rock Island" and "Iowa" elevators erected on the banks of the river, with approaches on the west side on both Maxwell and Fourteenth sts., and on the east side approaches will end on Fourteenth street and Fourth avenue. He says only a single bridge can be constructed at this point, as the river cannot be widened without great expense, on account of the elevators erected on each side of the river. In order to build such a bridge, however, it will be necessary to condemn about 15,240 square feet of land on the west side and 29,280 square feet on the east side, to afford the new street approaches. The engineer does not furnish any estimate of the condemnation damages in this case, but leaves the matter entirely to the council, which has ordered the plans prepared. From the urgent demands made for a bridge at this point an appropriation for the same will undoubtedly be provided in the next appropriation bill adopted by the City Council.

HYDE PARK.

At the Village Board meeting Monday, all the members were present. The cable "loop" at South Park was discussed. The Chicago City Railway Company proposed to cut through the block to Jefferson avenue from Lake avenue, 300 feet north on Fifty-seventh street. There is no opposition to such a route, and the matter was referred to the Judiciary Committee and the attorney, with instructions to the latter to draw the necessary ordinance. Five $1,000 village bonds of 1875, due in 1895, were cancelled in open board. A large number of ordinances for public improvements were passed and a number engrossed. The Commissioners estimated the cost of a system of water pipes in Cottage Grove avenue, between Thirty-ninth and Sixty-4eventh streets, to be $54.000.

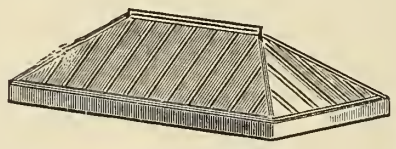
A BILL FOR RESTING TITLES.



The Union League Club, the Commercial Club, the Iroquois Club, the Citizens Association and the Real Estate Board, for the pnrpose of considering, among other matters, the questiou of real estate titles in counties where the records have been destroyed by fire, appointed committees from among their organizations, to draft a bill for an act in in relation to th › title to real estate, where the records have been lost or destroyed. These committees met together and formed a general committee, and that general committee took into consideration the matter, and appointed a sub committee to consider and draft a bill upon the subject.

The following gentlemen were appointed upon the sub-committee, viz: A. M. Pence, Chairman, John P. Wilson, Harvey B. Hurd, John L. Thompson, W. D. Kerfoot and Geo. C. Walker, who represent the varions clubs mentioned.

The sub-committee drafted a bill and submitted it for consideration to the general committee and after a full descussion and several suggestions it was referred back to the sub-committee with directions to re-draft the bill aud embrace in it the points agreed upon, and to have the same printed and to again bring it before the general committee so formed. They were also directed to lay the matter specially before the abstract makers, and to invite them to be present at the next meetiug of the geueral committee and to hear all that could be said in opposition to the scheme proposed, and thus, if possible, put the matter in a shape that would be satisfactory to the community.

As soon as the bill is likely to become a law we will publish it in full, revised.

HOW TO DECORATE.

—Painting on earthenware has become a exceedingly favorite recreation of late years and there are many different names given to the ware used for ornamentation; even common stoneware can be tastefully decorated for the cabinet or toilet table; those of picturesque form are the most suitable for the purpose; the old earthan jars are very ornamental, decorated with some favorite floral design in oil colors and nsed as a receptacle for palms, ferns and vines falling over them.

—Tiny wash-boards are gilded, decorated with ribbons, and form nniqne shaving cases. Even the wooden potato-shovel is painted with some favorite bit of scenery aud adorns a corner in the drawing-room; and now comes the beef-steak broiler, which is so transformed that one would never dream of its originrl use. The wires are gilded, and bright lined ribbons are run through the spaces, and the attractive arrangement is suspended from the side wall for holding newspapers.

—The revival of brass as an ornamental accessory to furniture and the furnishing of our apartments, has already shown itself to be unlike the nsnal run of fashionable freaks, inasmnch as it promises to be permanent and fixed. Brass bedsteads please the popnlar taste; they are shown in plain styles and with canopy frames. Brass tables with ivory tops are considered very elegant, and many of them have chains and drops attached to the corners. Clocks are made of brass; the legs of ornamental tables, curtain rods, candlesticks, in fact brass is being put into shapes never heard of before, and in a variety of household articles, has taken the place of wood and other metals.

BUILDINGS MOVED,
re-sllled and nnderpinned reasonably by experienced workmen. Country work solicited.
NB. We can dispose of frame Buildings on very short notice, as we have constant inquiry from parties who will pay fair price for same. Correspondence invited. Address:

ESTABLISHED 1846
MUNN & Co.
PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries. Their experience is unequaled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings. Advice by mail free.

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York.

Handbook about patents mailed free.

THE
Real Estate and Building
JOURNAL.

R. C. SMYERS, Editor and Proprietor.

CHICAGO, SATURDAY, DEC. 25, 1886.

THE MARKET.

With this, the last issue of the year of 1886, we close one of the most interesting years, in the past decade at least, in the new developments and phases which it has shown, as well as one of the most prosperous—for the records show an increase over last year's bnsiness fully as great as anticipated.

In the first place, a market which can sustain a series of shocks which it snffered at the very opening of the business of the year, from labor troubles and riots, must be acknowledged to be placed on a firm basis; in fact, firmer than it was really thought until it was actually put to the test.

Then the year shows plainly the existence of a greater confidence in Chicago real estate as an investment by home capitalists. It is this which has largely dissipated the mistrnst which has been prevalent throughout the country in regard to our city real-estate. In New York, during the recent Wall street panic, first mortgages on Chicago real-estate were at a premium. One firm placed $90,000 in mortgages on Chicago real-estate at 6 per cent by telegraphic order from New Yorк at that time.

The summaries, as given by the months, in our New Year's issue, will form an interesting study, and show a large trade, especially in the last six months of the year.

Frances P. Peabody & Co., in speaking of the business of the year in loans, said, "while the rates of interest were cut during the early part of the year, the market had now regained itself and was in a decidedly firm and good condition. The business transacted in loans will show an increase over last year. The capital which is being placed in real-estate mortgages is coming more and more from home investors. Fully fifty per cent. of the money loaned comes from home capitalists."

Edwin F. Getchell & Co. believe more money sought investment in Chicago real-estate during the year of 1886 than ever before. As a result, the year will show a greater number of sales consummated.

The demand for central business property still keeps up. There seems to be a greater number of non-residents who are in the field for euch purchases. The outside demand seems from both the East and West.

Investors who have made large amounts in Kansas, Omaha and other western cities, on examination of the prices of Chicago real-estate, are surprised at their lowness, and are turning their attention to it for investment.

Acres are also in active demand and will be sought to a greater extent during the coming year than ever before.

In regard to the per cent which is satisfactory to capitalists, Mr. Getchell further said: "On business property, 6 per cent. net, which means about 8 per cent. gross. On residence property, 7 and 8 per cent. is demanded."

F. A. Henshaw, in an interview in regard to rents, said: "Business property held its own in rents, and in some locations, increased. The larger part of the residences were rented at last year's prices. Those which were left over dropped somewhat. This was specially to be noticed in first-class residence property, renting above $50 a month. It did not effect the demand for this class of property, however.

In regard to the outlook of the coming year, it is a little early to make any very emphatic prediction, but everything at present looks very favorable.

There is considerable leasing of first-class residence property for a term of years, from three to five. Property owners find this necessary to protect themselves."

Max Eichburg has removed his office to No. 144 La Salle street. He is loaning money in large and small amounts at 5 per cent.

VALUABLE COLLECTION of TROPICAL PLANTS.

Humboldt Park is not only a popular summer resort in summer, but is a place of much interest when the snow covers the ground. The new conservatory, nnder the efficient and superior management of Supt. F.W. Karnatz, who is a thoroughly competent and experienced horticulturist and landscape gardener, is interesting as well as beautiful. The building is heated throughout by hot water pipes, and is entirely filled up with tropical plants, creeping vines and beautiful flowers. Although finished late in tne fall the whole affair presents the appearance of completeness, and it is a matter of regret to tax-payers and the board that a larger building was not built.

ASSTUTE REAL-ESTATE AGENTS.

The Daily News, of Thursday evening, says: "George A. Hill has had James H. Keeler, a real-estate agent on Clark street, arrested on a capias adresponpendum, and the latter has given bail for future appearance. Hills alleges that Keeler represented himself as agent for O.C.Kellogg and sold to Hills some real-estate belonging to Kellogg, on which Hills p'd $400. There was a balance due, but before it was paid Hills alleges that Kellogg repudiated the whole transaction, saying that Keeler was not his agent. Hills wants his money back, and avers that Keeler won't return it." This it seems is not the first trouble of the kind Mr. Keeler has got into, and he is not the worst real-estate agent in Chicago, either. We know a score of them who are a curse to the business and a disgrace to Chicago. They meddle with the business of other reputable agents and attempt to negotiate and sell property over which they have no control. Among the nnmber alluded to is a certain "blondish" gentleman whose office is in the tenth story of one of the new buildings near the foot of La Salle street. He "cuts a wide swath," but does not pay his bills. He is bound to have his Share (on) a deal now and then, and he is bound to have some free advertising, which he is sure to get if he does not mend his ways. We do not mind contributing our Shar on indigent real-estate brokers, but the curb-stone fellows have more cheek and gall than we can endure and remain quiet. More anon.

FIRE INSURANCE.

Mogensen & Dinkelman have recently opened up a general insurance agency at 142 La Salle street. Both members of the firm are practical insurance agents. They represent the following well known companies:

Hekla Fire Insurance Co., Madison, Wis.
Hanover Fire Insurance Co., New York.
Anglo Nevada Associated Co., California.
Birmingham Fire Ins. Co., Pittsbnrgh, Pa.
Scottish Union and National Ins. Co., Edinburgh.
Fidelity and Casualty Co., New York.

Special inducements offered to manufacturers.

THE WEST PARK BONDS.

PLAN PROPOSED TO PAY THEM IN 1890.

A meeting of the West Park Board, with a number of citizen tax-payers, met on Wednesday evening to consider the snbject of refunding the $640,000 due in 1890. Mr. C. C. Kohlsaat, who was one of the subcommittee, said "the committee would report that the bonds, to the amount of $640,000, become due in 1890, that there is no provision made for their retirement by law or otherwise; and that in its opinion, there is no power in the town to issue new bonds to refund the loan without additional legislation. A bill to be presented at this session of the Legislature will therefore be submitted for approval to the commiteee. It is deemed wise that between now and 1890 the amount of the bonds should be reduced as much as possible, and the bill will provide for the retirement of a certain proportion of the bonds. It is proposed to do this in the following manner: Something like $70,000 is due the West Town from the Collectors who kept the 2 per cent. This, or a large proportion of it, will be available before long. It is proposed to vote at the next annual meeting to appropriate $30,000 by special tax-levy. and an effort will be made to arrange it so that the annual meetings of 1888 and 1889 will appropriate similar amounts. By this means the bonds may be reduced to $500,000. This amount can then be refunded in a series of new bonds to be retired at maturity by a sinking fund to be established. The new bonds should be placed at 4 per cent, whereas the present draw 7. Most of the bonds are held in New York and are quoted at$1.05. If they were long-time bonds they would be quoted at $1.20 or more; as it is they cannot be bought. There is no reason why they should bear more than 4 per cent, as no better securities are known. Some arrangement can perhaps be made that the bonds may be held at home instead of in other parts of the country. The sub-committee will also report the form of resolution to be offered in the annual town meeting, as well as the bill to be presented to the Legislature."

RAPID TRANSIT FOR THE WEST SIDE.

An elevated road for the West Division seems plausible enough. A certificate of final incorporation was issued Wednesday by the secretary of state, and it was claimed a capital stock of $10,000,000 had been subscribed. The attorneys who applied for the papers were Anson H. Lawrence, Edward F. Cahill, and George A. DuPuy. Lawrence was elected one of the directors, bnt no one of the three would give any definite information concerning the project. The only thing to be obtained from them was the statement that there was plenty of money back of it, that it was principally furnished by eastern capitalists, and that it was a bona fide undertaking. The object was to run an elevated road from the center of the city to the west line of Cook county, between Lake and Harrison streets, and to have branches leading to Humboldt park, Douglas park, the Stock-yards, and the corner of Western and Blue Island avenues. After Mr. Dreyer's name had appeared in print, Jacob Rehm came into his office and asked him if he was not surprised. At the same time Mr. Dreyer said a friend of his had explained to him how his name came to be used as a director, and he was then satisfied to allow it to remain. As to whether Mr. Yerkes was interested in the scheme he was unable to state, but argued that it was very unlikely. He said the board of directors expected to hold a meeting by the middle of next week, and matters would doubtlessly be sufficiently formulated by that time to allow the facts to become known. He declared that he could have sold any quantity of stock in the enterprise yesterday had he been able to give the facts in the case. and said one man had agreed to subscribe $100,000 worth of stock in case the road would be run on a certain street west of the city limits. He had no doubt the scheme would be successfully carried out, and only wondered where it would be possible to get across the river.

M. G. Good will erect a block of three-story stores and flats 95x80 ft., at the corner of Harrison St,and Westers av. at a cost of $30.000. W. G. Barfield 81 Clark st., is the architect. They will be built of Anderson pressed brick, Buff Bedford stone, etc.

Messrs Yondorf Bros., will erect a block of stores with hall above at the corner of North Ave., and Halsted st., at a cost of $35,000. They will be 57x125 ft., and built of Anderson pressed brick and brown stone; F.Ahlschlager 70 La Salle st., is the architect.

R. P. Travers will erect a two-story dwelling 25x72 ft., at a cost of $14,000. L. G. Hallberg, Ashland Blk., is the architect.

The Bradley Mfg., Co., will build a two-story addition to their building at 59 to 63 Fulton st. It will be 60x100 ft., cost about $6,000, and built of brick. T. Nichelson 159 LaSalle st., is the architect.

Mrs S.Webb will erect 2 2-storyresidences 40x35,at Nos. 189 and 191 Irving ave., at a cost of $4,500. It will be built of pressed brick and Lemont stone. J. Webb, 884 Adams st., is the contractor.

Mr. Frank Driesel will build a two-story residence 23x 93 ft., at 701 N. Halsted St., at a cost of $6,500 R. Knoll, 92 Burling st., is the architect.

C. J. Farson will erect a three-story store and flat building, 22x83 ft., at 3331 State st., at a cost of $7,500. F. R. Schock. 81 Clark st., is the architect.

THE GROWTH OF OUR CITIES.

It is difficult to realize the rapid strides in popnlation and wealth which our business centres in all parts of the conntry are making. There is one example which may perhaps give some idea of the wonderful progress of many of our cities. In 1880, Duluth, Minnesota, had a population of 3,500 persons; it now has over 30,000. In 1869 there were not a dozen houses on the present site and not over a hundred persons. When Duluth built its first grain elevator it was looked upon at being an act of great temerity. It now has over twenty elevators, which will accommodate over 12,000,000 bushels of wheat. At a fire the other day nearly half a million dollers' worth of property was destroyed in this city of yesterday. It is not so many years ago when Congressman Proctor Knott poked fun at what he called this "Zenith city of the unsalted seas." There would be no point in that joke now.

But this is only one case among many. The growth of St. Paul, Minneapolis, Kansas City, Denver, Omaha and twenty other places which might be named is also eqnally marvellous. We our witnessing to-day an emigration to the West and Northwest greater than any known to our history. But this passing of population over the Mississippi and the Missouri is not checking the growth of our Central and Eastern States. Tne old hives of population continue to swarm. New York this year will add more to its popula- than other previous twelve months in its history and the addition to our numbers and wealth will be larger next year that this.

But, of conrse, the phenomenal growth is in the West, and strangely enough, the only city which seems to suffer is Chicago. Of course that enterprising city continues to grow, and grow rapidly, but the country tributary to it is being circumscribed. It has lost its monopoly of the grain tarffic, and it soon will be no longer the great lumber or provision market. Armour and the powerful beef packers threaten to change their business to localities nearer where the herds are grown. In the future the proportion of grain and dressed meat sent directly East from the rivals of Chicago will become greater and greater. Yet, of course, the prestige of Chicago is established, and there is no danger that it will retrograde. It will become richer and more populous as it grows older; but it no longer has a monopoly of the food and building products which gave it the first start and which has made it the city it is.—Record and Guide.

HOW TO DECORATE,

—A silk bag attached to a gilded palm leaf fan is a pretty recceptacle for photographs or a bit of fancy work.

—Hanging brass lamps, with a great profnsion of jewels, are extremely elegant and very popular for halls.

—Lamps of cut-glass are the latest thing in extravagant illumination.

—Among the nseful gifts are leather cases 10 inches long and 5 wide, in which are blacking-brush's and mud-scraper all in one, for travelling.

—Full dress fans are entirely ornamental—something to be carried merely for our friends to admire.

—Large silver card-cases, which were the pride of our grandmothers, have come back again.

—A small silver man dolin, arranged with a snpporrt at the back in easel-like form,is a nnique frame for a cabinet picture.

—Crystal canelabras, filled with spiral wax candles of various colors, are much used on dinner tables.

—For the decoration of Christmas trees are strings of balls of painted glass and bunches of inset that add so much to its gay appearance. Surprise boxes, in which bonbons are concealed, represent fruit or flowers, or there are gretesqne monkeys or dogs, a bottle of wine, packages of cigars,etc.

THE ANTELOPE VALLEY OF NORTH DAKOTA.

For the first ten or twelve miles after leaving Rugby Junction, that thriving town where the Manitoba road forks, one line going toward the Turtle Monntains and the other wending its way Pacificwards, I passed along np the beautiful Antelope valley. And right here,let me say, that I cannot refrain from giving you something more than a mere glimpse of this region. To our left, some six or sever miles distant, are the timbered slopes of the Mouse River hills, the stockmen's ranges, while stretching far away behind us and for several miles in front, is the fertile basin of deep, black soil, known as the Antleope valley.

The land is evidently of the best character, perfectly free from alkali and having ample natural drainage. The present population of the valley is composed of Americans, Canadians and Scandinavians, the former-class predominating in numbers. Now that the St. Paul, Minneapolis & Manitoba Rw'y passes through the center of this valley, and a large and growing town supplies a good home market, immigration will doubtless increase rapidly. The settlers nearly all live in sod houses and are industrious and enterprising. Lest I should be misunderstood. let me say that a sod house, instead of being put up merely because it is so cheap, is often erected by quite well to do farmers, who see in building an investment which returns no interest, while the same amount invested here in stock, will soon double. Again, sod houses are often the most comfortable of dwellings, and well built, seem to add attraction to the landscape, while the pretentious frame strncture would often be out of place amid this beautiful naural scenery.

One thing which I could not fail to observe was that the settlers here are ali very proud of their valley, and sound its praises in unlimited terms. It is natural for men to to think will of their chosen home,and consequently, for one to make a liberal allowance for stretches of the narrator's imagination. However, theve is no "skeleton is the closet" in Antelope valley. Here is a long, wide area of splendid, rich soil, upon which the tame grasses would grow in profusion, making this an excellent field for the operations of diversified farming.

The present is emphatically the time to secure lands in the Antelope valley. There are plenty of homesteads, preemptions and tree claims awaiting the action of the settler, in order to become a great agricultural region. Certainly here is a rich field for men of limited means and unlimited day's works, to become prosperous landholders. Lands can be had within a short distance of the St. Paul, Minneapolis & Manitoba Railway, for nothing more than the takeing, Probably there is no such large body of very fertile soil is the United States that is so accessible to transportation, and possessing so many and varied attractions of soil and location, as this Antelope valley, on the Divils Lake division of the Manitoba road.—St. Panl Globe.

Persons wishing beautiful suburban homes ready to move into by the first of May next, will do well to send for one of the pamphlets of Morgan Park property and houses, issued by Col Geo. R. Clarke, No. 205 La Salle St., which will tell all about the prices of houses and easy terms of payment.

A BILL FOR REST OF TITLES.

BY M. J. DUNNE.

The proposed law for securing a "rest of titles," published in your issue of last week, will undoubtedly attract attention, and excite criticism and discussion, because the subject is one that lawyers and real-estate men have been considering for "lo, these many years," and I presume that the learned committee who framed the bill would not discourage, but would rather invite criticism, in order that its weak points and objectionable features might be pointed out and removed.

That some legislative remedy is desirable and almost imperatively necessary, is patent to every lawyer who undertakes to examine an abstract. and pass upon a title to a piece of land in this city, for he must realize how ridiculous it is, that every time a lot is sold in any of our least known "additions," it is necessary to commence the examination at the United States receiver's certificate of entry, and trace the title down for fifty years, through perhaps a hundred transfers, to the present time, well knowing the fact that the same thing has been done for half a century by two generations of lawyers. Then, when we come across a conveyance made forty years ago, when no wife joined, or where there appears some very slight or very technical objection or defect in the acknowledgment, we are at a loss to know whether we can safely pass such matters as too old to notice, or consider that such matters have been raised and explained dozens of times before, or remembering the Clybourne or Campbell dower suits, shall we decline to pass these matters as absolute or trifling.

So we sigh and hope and pray for some effectual remedial act—some statute of repose—that will certainly quiet and settle titles.

But is the proposed bill such a measure?

After a perusal of it, I have my doubts, and can discern some objection to it, in substance and form.

FIRST, It is novel in proposing to settle and establish titles, without any judicial investigation, without citing parties to appear and show cause against the proceeding, and without any authoritative judicial finding of facts, and it would appear as if it were open to the constitutional objection, attempting to deprive persons of their rights in property without due process of law, as known to the common law.

It will not be contended that the filing of a "declaration" or claim of title with a master in chancery, and producing one witness before him to substantiate the statements contained in the declaration, is a judicial investigation.

SECOND, If effect be given to this act, and prodeedings had under it.hardship and wrong may occur to many an innocent and unwary bona-fide owner of land, who, resting on his knowledge or belief in the integrity of his title, might not keep watch of the recorder's office to ascertain if any declaration were filed against his lot, and who might learn too late (after the prescribed three years) that some person had "declared" against his lot, obtained a master's certificate, sold or incumbered it, and thus deprived him of his property, or compelled him to resort to chancery to remove the cloud from his (the true) title; and section 14 is well adapted to foster and protect the filing of false and fraudulent declarations and affidavits, framed loose and weak enough to avoid the penalties of perjury, yet fast and strong enough to bind the property, if not attacked. And it is no adequate remedy to offer a man, when his property is taken away or clouded, to say he may prosecute the perjurer.

THIRD, I question whether this bill, if enacted, would accomplish what it is hoped and intended it shall any more effectually than our present Statutes of Limitations, which, as is well known, are of little value in enabling a title otherwise defective to pass as merchantable.

No lawyer will now approve a title based upon twenty years' adverse and exclusive

possession, or upon seven years' possession with payment of taxes under a color of title, though those statutes attempt to make those titles good. Why? Simply because there has been no judicial finding and determination of the truth of those facts, and therefore the same result will follow the passage of this act. No lawyer would pass a title based upon and not going behind the certificate of a master, and therefore the law would be futile and valueless.

Chicago, Dec 20, 1886.

NOTICE TO THE PUBLIC.

Newspaper publishers and Editors should be on their guard against one W. S. ALLEN, who has robbed this JOURNAL as well as others. He is a dead-beat of the worst type. He is small in stature, dark complected, dark mustache, and usually wears a small chin beard. He is careful not to give his proper address, for the purpose of evading service. Look out for him.

Indiana and Illinois; also for repealing ordinance for sidewalk on west side of Butterfield st, from 22nd to 25th.

HOW TO DECORATE.

—Extremely pretty and quite inexpensive Bureau scarfs are made of ecru etamine, the threads are drawn in several places across the scarf and at intervals of two inches, bright ribbons are run through these spaces and the edges of the scarf is finished with soft lace.

—By the use of fairy lamps, which have become very popnlar, charming effects may be produced. They are very popnlar for dinner table decoration; they are smal lights in circular glass receptacles, placed in the center of colored glass flower holders, and are covered with tinted dome-shaped shades; they are placed at intervals along the dinner table, and the effect of the light shining through the tinted globes is charmingly soft.

REAL ESTATE LAW.

Benjamin A. Stokes v Asabel Care et al. Filed at Ottawa, Nov. 13, 1886.

1. Recording Law—Who is a purshaser for value, as against an unrecorded deed.—A purchaser in order to be protected against a prior unrecorded deed must in fact have paid for the land before notice of the title under the unrecorded deed; but it is not essential that he shall have made payment with his hand in person. It will be sufficient if payment is made by another and the deed taken to him. In a contest betweeu such purchaser and a prior one, the equities between such subsequent purchaser and the party in fact paying the purchase money, can not arise.

2. Same.—When a sale under execution against a debtor was made on July 15, 1869 and the sheriff's deed dated Aug. 25, 1873 was not filed for record until May 6 1881, and the debtor, on March 4, 1880, conveyed the same property sold under the execution, to a party who had no notice, actual or constructive of the existence of the sheriff's deed and whose deed was first recorded. Held that the conveyance of the debtor would prevail over the sheriff's deed.

The record showing a sale of lots under executions, and the record of the certificate of purchase, is notice to a subsequent purchaser from the execution debtor of the sale bnt is not sufficient notice of the making of a sheriff's deed and a purchaser from the debtor after the expiration of the the time allowed for taking out a sheriff's deed upon a certificate of purchase, such deed not being recorded and the lots being vacant, will hold the property as against those claiming title under an unrecorded sheriff's deed.

4. The general rule under our recording laws, is where there are two conveyances of the same land, either of which by itself would be sufficient to pass the title, the deed first filed for record is gived the preference and passes the title, and a quit claim deed is as effectual for transferring title under this rule as a deed of bargain and sale.

5. While it is true that a failure to file a deed for record does not render it absolutely void, yet the law permits the title which it purports to convey, to be taken away by a subsequent deed obtained by the grantee in good faith, and for a valuable consideration, without actual notice, and thus render it inoperative.

6. Same—Of sheriff's deed.—If a sheriff's deed is made for land sold in execution against the owner, the record should show it as to subsequent purchasers add incumbrancers without actual notice, and if the record does not show it, it may be reasonably concolnded in the absence of actual notice, that it has not been executed.

7. Notice—Constructive.—The question upon constructive notice is not whether the purchaser had the means of obtaining and might, by prudent caution, have obtained, the knowledge in question, but whether the not obtaining it was an act of gross or culpable negligence. If mere want of caution, ls distinguished from fraudulent and willful blindness is all that can be imputed to the purchaser, then the doctrine of constructive notice will not apply.

A quit claim will not cut off a prior unrecorded deed unless such was the intention of the parties: Butterfield v Smith, 11 Ill. 473; McConnell v Reed, 4 Scam. 117: Hamilton v Doolittle, 37 Ill. 473.

In the matter of Eugene H. Bates, assignee etc. Filed at Ottawa, Nov, 13, 1886.

1. Insolvent Estate—When there is an assignment for the benefit of creditors, the assignee will take the estate rssigned in trust for the benefit of all the creditors of the insolvent notwithstanding that some of them may have their debts secured by deed of trust or otherwise creditors are entitled to share equally with unsecured creditors in any and all dividends and distributons of the insolvent estate.

3. Interest of assignee in incumbered property.—When a debtor assigns property incumbered by a mortage or trust deed, the assignee will take subject to he lien of the mortgage or trust deed. All he will take is the equity of redemption. He will have no control over the interest of the holder of the mortgage.

3. Mortgage Rights and remedy of mortagee.—A mortagee may foreclose his mortage or bring his action at law, on the mortgage debt and make the same out of other property than that mortgaged; and, when the mortagee makes a general assignment for the benefit of his creditors, the mortagee may claim his dividend oh his whole debt out of the general assets of the estate. In such case the amount of the dividend should be credited on the debt and the mortgage foreclosed for the balance only, and in case of a surplus, that will go to the assignee for the benefit of the other creditors.

4. In the settlement of an insolvent estate the proper course is to allow a creditor to prove his whole debt without regard to any collateral security he may hold: and if the dividend so reduces the debt that the collateral security will more than pay it, the assignee is bound to redeem it for the benefit of the other creditors.

ESTABLISHED 1846
MUNN & Co. PATENTS
NEW YORK

After Forty years' experience in the preparation of more than One Hundred Thousand applications for patents in the United States and Foreign countries, the publishers of the Scientific American continue to act as solicitors for patents, caveats, trade-marks, copyrights, etc., for the United States, and to obtain patents in Canada, England, France, Germany, and all other countries Their experience is unequaled and their facilities are unsurpassed.

Drawings and specifications prepared and filed in the Patent Office on short notice. Terms very reasonable. No charge for examination of models or drawings Advice by mail free

Patents obtained through Munn & Co. are noticed in the **SCIENTIFIC AMERICAN**, which has the largest circulation and is the most influential newspaper of its kind published in the world. The advantages of such a notice every patentee understands.

This large and splendidly illustrated newspaper is published **WEEKLY** at $3.00 a year, and is admitted to be the best paper devoted to science, mechanics, inventions, engineering works, and other departments of industrial progress, published in any country. It contains the names of all patentees and title of every invention patented each week. Try it four months for one dollar. Sold by all newsdealers.

If you have an invention to patent write to Munn & Co., publishers of Scientific American, 361 Broadway, New York.

Handbook about patents mailed free.
